Ambulance News!!!

By- Carrie Driskell

We are still a ways from our membership of \$5000. If you can help, please call Carrie at 865-3224.

This has been a busy, busy month on our ambulance. We had crews respond to every call.

Watch out for kids on the road and be careful after the first rain, the roads will be slick.

Firehall News- by Rick Martin

We are saddened and deeply disturbed by the past tragic events upon our nation. Our thoughts and prayers go out to everyone and every family member of those lost, injured or displaced. As we watch the events unfold we feel a tremendous sense of helplessness and despair.

As servants of our community, the volunteer firefighters sympathize with our heroic fellow firefighters of New York City who lost their lives and those who continue with the agonizing search and rescue efforts. One of the greatest difficulties is the inability to contribute our personal efforts. We are encouraged and strengthened by their devotion and tenacity in the face of this unspeakable atrocity.

This tragedy reinforces our commitment to the pursuit of exceptional service for our community. This is accomplished only through education, training, and community partnership. Though our fire department stands ready to assist our community membership, it is everyone's responsibility to engage fire control measures.

To further enhance our ability to protect our community, in the past month we have received assistance from representatives of Oregon OSHA, Southern Oregon Regional Communications, and Oregon Department of Forestry. We have established safety operations and guidelines, developed communication standards, and completed our requirements for the wild land grant.

We cannot be with our fellow New York Firefighters in person, but we are there in spirit and hope that our thoughts and prayers rejuvenate them in their continuous struggle.

Citizens of Butte Falls....

I apologize for not hanging the flag at City Hall during the terrible tragedy last month. The ropes on the flag pole fell down quite some time ago and it just took a little longer to get it fixed than I had hoped. A special thanks to Bill Tucker for fixing it. If you ever have any questions regarding city business, *please stop in and ask.*
