

Alert -809 Calling Scam!!!

If you get a message telling you to call a 809 phone number.... do not do it! You will be charged \$2425 per minute! This area code (809) is from the British Virgin Islands. They will tell you that you have won something, or that they have important information about a family member etc. to get you to call.
BEWARE!!!

Why do croutons come in airtight packages? It's just stale bread to begin with.

This prayer was sent to me several years ago when my son went to Europe, not to war, but in peaceful times. I'd like to share it with those who have loved ones in or leaving for the service....

"A Child Leaving for Foreign Lands"

Our child is packing his bags, God, for a trip to foreign lands. Bless this child and keep the enthusiasm high (and my own nervous apprehension safely hid.)

Thank you for this child, Lord. Thank you that you will keep him safe. Thank you that you will help this child to be equal to all the challenges, giving courage Lord, and good judgement and wisdom beyond years.

Bless the people this child will travel with, and the others this child will meet, to learn from them as they will learn.

Let your love shine through in new relationships, warming and blessing them so that only good will come of this time, and with understanding and peace, and lives forever enriched.

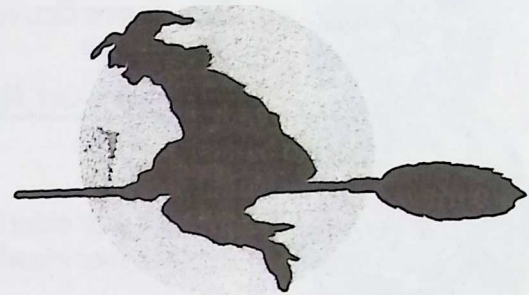

Keep them all safe, Lord. Keep them well. Stay close to them so they don't get lonely or discouraged. We love this child so much, Lord. *This child that is leaving for Foreign Lands.*
