The Butte Falls Volunteer Fire Department would like to thank the people of our community for showing their enthusiasm towards emergency calls. When firefighters respond to an incident, we know what needs to be done immediately. **Life Safety**, we are making sure firefighters and civilians' lives are not in danger of any accidents, fatal or otherwise. **Incident Stabilization**, when we determine scene safety has been accomplished, fires put out and hazardous situations controlled, **Property** can then be saved. There is nothing more precious than life itself and in the heat of the moment seconds add up fast. So please always listen to your incident leaders. Their decisions and rigorous training has been done for the bettering of the community and will continue doing so.

Applications for volunteers are now being accepted at City Hall.

Thank you.

The BFVFD.
