Thank you to the following people:

You know it doesn't seem to matter if the sun is shining or the stars are out, the temperature is 100 degrees or 10 degrees, dinner is on the table or they are spending time with their families, reading a bedtime story or watching their child play a school sport, they just come when you call. I am talking about our very special ambulance and fire department folks. I knew when we called 911 they would be there quickly. I could trust their judgment. I knew they would take care of me as best they could. They do the same for complete strangers. Thanks to you Carrie Driskell, Shelly Conopa and Jeff Gorman for coming to 'save me'. I know and appreciate all your time and training you give as volunteers. Sincerely, Nancy Thompson
