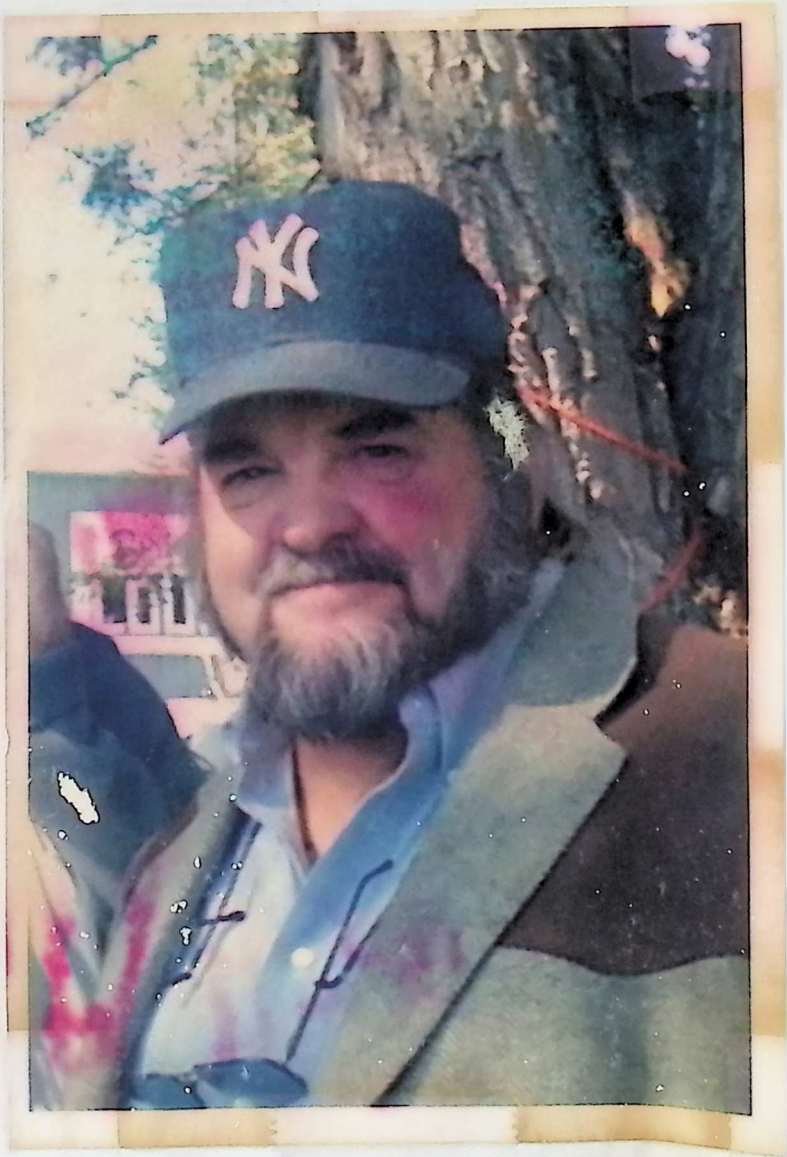
Mayor of the Year!
Ron Ormond

Most days you can find Mayor Ron driving around town, in his maroon truck (ask him about the dent), to the current project or next project that needs to be done. He is definitely the **MOST** hands on mayor this town has ever seen! Which is something this town **REALLY** needs! He does not know the meaning of the words, **'down time'**, because he doesn't have any. Or that is just the way he likes it, to keep busy. And by keeping busy, I mean the sewer upgrade, community hall upgrade, cemetery upgrade, installing a bulk water station, Laundromat overseer, cleaning up the Recycle Center, fixing broken water pipes in the park and the city hall upgrade. But the list is much longer that this, those are just some of the big ones! He also supervisors all employees and does the budget each year. And for what? He doesn't get paid for any of this hard work. I think he generally cares about this town and feels good about a job well done!


Well done, Mr. Mayor - our hats are off to you. Thank You! Editor LP
