

WHAT'S WRONG WITH THESE PICTURES?

#2. Metal bin means METAL ONLY!

4#. Again, Metal bin means METAL ONLY! How hard is that to grasp?!

This is why the recycle center is closed so often.

#3. No household trash, EVER!

Some people choose not to follow the rules and make it bad for all the ones who do! We have been getting numerous complaints about trash, fencing, cable, microwaves and computers being dumped in the metal bin! **They don't take those items so quit dumping them in it!** We have also been getting numerous complaints about household garbage in the big, brown dumpster. **What's wrong with you people? That's what garbage cans are for.** Go out and get some of your own and quit screwing it up for the rest of us!!! You know who you are!! And so does a lot of other people.

This program was started to keep the low lifes from dumping their trash in the nearby forests. Unfortunately that hasn't stopped them. If you see anyone heading out Truck Road or any other forest area with a load and coming back empty, call the police and turn them in. It's time for this to stop!

Because of the problems with the Recycle Center and the high cost of removal we have been forced to cut back our hours to Saturday and Sunday 8 am to 3 pm. This year the center will be closed from November 1st thru April 15th. In order to help pay for the cost of removal, the Town Council has passed an ordinance to have every household pay \$6 per year starting in July with the payment due by August 31st. If you have been reading the thank you's that are in the newsletter you might notice it's the same people that donate and we appreciated them. But EVERYONE has to start helping out or we might have to close the center. What would you rather do, drive down the hill with gas being over \$4 per gallon and pay for every load or pay \$6 per year and use ours? Seems like a no brainer to me! But it's up to you! ...Editor..
