*Making Easter Baskets
Egg Coloring and Hunt
April 3-5, 2012*

What we have been doing:

- o We started our garden sight; there is a lot more work to do. First set of seeds have been started and they are sprouting. We are working on building benches and arbors in the garden. We've been clearing brush.
- o We made Easter baskets out of recycled materials, dyed eggs, and had a little egg hunt. Little surprise treats were added to the baskets.
- o We hosted the flashlight Easter egg hunt. There was an outside movie on a projector screen called "Hop", hidden prize eggs, silver winner eggs for DVD's and music CD, refreshments, and bon fire for everyone to enjoy.
- o We work on projects daily inside lately due to the weather conditions; we are excited for the weather to improve and get outside to enjoy NATURE!
- o Plus much more, lots of things upcoming and we welcome you to join us!

UPCOMING TRIPS

MAY 2012

We will be looking into fundraising for future field trips. All the help and support we can get is greatly appreciated.

*"The Lorax" Movie Field Trip
Park in Eagle Point - March 23, 2012*
