"GET A LIFE" class project

By: Tyler Herzog, Brandon Goodman
and Jordy Gorman

In Business class this year we have just started a new project called "Get a life". We do a lot of things about real life. The first thing we start off doing is we have to find a job. Second we got a pay check for the first month and had to rent a house or apartment with it. Right now we are buying groceries.

This is a fake thing, so we are not really doing all of this stuff, like buying a real car or buying real groceries. So far it has been quite fun for the class. We have learned a lot about buying stuff, how much we can spend and writing checks.
