How to play:

Four players to a table (you partner with the person sitting across from you), 3 dice per table, game tracking sheet per player, score sheet per table.

Roll dice in order from 1 to 6.

Example – First round each player is rolling for 1's, every time a 1 is rolled it is worth 1 point. If all dice land with the same #, that roll is worth 5 pts unless they land on the # being rolled then it's called a BUNCO and worth 21 pts. When the head table reaches a score of 23 then that round is over and the next round begins by rolling for 2's and so on and so forth until six rounds have been played (four games are played). Players also move to a different table each round depending if you won that round or not.
