Project Reader Board is finally complete!

I would like to say THANK YOU to all of the community members and businesses for all generous contributions that made this project happen. The amazing monetary donations to purchase the reader board, the supply of all materials and equipment needed for installation, and the selfless volunteer hours that were put forth in completing the installation, was incredible. To see everyone, happy to step forward and help achieve this school based improvement project was truly an awe inspiring experience. Thank you so much...
