**from The Landing**

*office supplies, and water. In our case volunteers do all our administrative tasks. Although we write and receive grants for our children's programs, many foundations will not pay for basic overhead and yet we cannot keep our doors open without these basic services.*

*In these difficult times one of the most challenging problems with keeping a small non profit running is basic expenses like electricity, sanitary supplies,*

**So, we would like to thank these people who made contributions which will help us pay the basic bills and helps with our programs:**

*Thank you to everyone who has helped us through everything at the landing. We couldn't have made it possible without all the support. Thank you also to the members that regularly pay their monthly membership dues and volunteer to keep the programs successful. Your money helps us keep our many programs going.*
