## Natural Resource Center Updates

---

We are gearing up for a lot of activity at the NRC for this school year. Our teachers received additional training from Oregon Natural Resource Education Program through Oregon State University during the summer. All grades will be doing hands-on learning around the Natural Resource Program.

Mr. Sixta and his classes are developing a “Master Plan” for the Natural Resource Center in his Government class. Students gave presentations during the last week of October showing their ideas of what they would like to see. Check out our website, [www.buttefalls.k12.or.us](http://www.buttefalls.k12.or.us) to see some of the presentations. In the spring, his Economics class will look at the marketing aspects of promoting the center.

## Other Updates

Mrs. Gorman is researching the possibility of reinstating a **Random Drug Testing Program** for students. Your information and opinions are highly valued. Please feel free to contact her or attend the monthly Charter Board meetings where we will be further discussing this possibility. Current supporters include the Community Health Center, Student Health Advisory Group (SHAG), the School Board, the Charter Board and the Student Government.
