Natural Resource Center/Charter School Grant Updates

Butte Falls Charter School is still working towards having a Natural Resource Center down at the old fish hatchery. Teachers and students are utilizing the area with various classroom projects and place based learning experiences.

The district is still awaiting notification about the federal houses located on the property site and has been in touch with agencies involved with this. We have also been in touch with Representative Walden's office to see if he could help speed up this process. If you would like to show support for our school district and community about this project, you can contact him at: <http://walden.house.gov/>
