Butte Falls Charter School is an equal opportunity employer

August 2016

Welcome to the 2016-17 Sports Season! We are very excited by what is in store for our student athletes with all the preparation over the summer. As usual, our sports programs are geared toward shaping the character of young people through learning the value of hard work, commitment, responsibility, self-discipline and accountability. These are not just words for our coaches working in the trenches with our athletes, they are life values we are certain will help give every participant the tools to lead purposeful and productive lives after high school.

We are very grateful for the incredible outpouring of community supporters in and around Butte Falls. The time and effort many have invested in our kids is commendable. Either working the BBQ, gate and concessions, or the donation of materials and funds for capital projects, as well as the cheering fan wearing the axes on the chest, we look forward to seeing all of you again this year.

Please contact me if you have questions or want to be involved.

Go Loggers!
