**SIMONDS SAWS**

are one of the articles we bank on in our store. We sell high grade hardware. Our customers appreciate good goods.

The makers guarantee the Simonds Saw free from all defects. They have proven to us what we want to show you.

First— This saw is evenly tempered, properly ground, nicely polished and correctly fitted with apple handle.

Second— It "hangs" just right.

Third— And most important, it is made of Simonds Steel and therefore has the right saw material in it for holding a cutting edge through hard usage.

When buying an edge tool don't buy cheap goods. Pay enough to get good quality steel.

Every man, whether carpenter or not, should own at least one good saw. Come in any time and see the Simonds Saw.
