COMMUNITY SING GREATLY APPRECIATED

Sunday afternoon a large number of Florence people gathered at the Carnival pavilion in response to the announcement that there would be an effort made at that time to get the people interested in community singing.

Martin Sharrard led the singing and Miss Willa Wilkinson presided at the organ. The organ was loaned to the committee for this occasion by Mrs. Clara Walker.

Those present enjoyed the event and took part in singing with an enthusiasm that showed they liked the program of old time songs.

It is planned to have these "Community Sings," quite often and if the weather permits one will be held next Sunday afternoon. Watch for the announcement.

COOKIES ARE COOKIES

Recently Charlie Morgan got hungry for cookies and decided he would patronize home industry, so he got down his famous and reliable cook book. One that he had always found an authority on appetizing and toothsome dishes. Charlie began to taste cookies as soon as he touched that cook book, and quiet patiently and carefully he measured each ingredient, and then he thoroughly stirred the mixture. So far all went well but to Charlie's surprise, instead of only two dozen cookies, the amount the receipt guaranteed, he had trouble to crowd them into a three gallon jar, and Charlie is rejoicing.

INCORPORATED TOWNS ARE ROAD DISTRICTS

Beginning with this year every incorporated town and city in the state of Oregon will become a separate road district and the general road levy made by the county court each year will not apply to these incorporated towns and cities for the reason that they have a road and street fund of their own.

For a long time past Eugene and Cottage Grove and perhaps one or two of the other larger towns in Lane county have been under provisions of this law, but the 1915 legislature now places all the smaller towns in the same class as far as the road levy is concerned.

Heretofore the towns have been compelled to pay the road tax which is used for the improvement of the highways in the outside districts, at the same time the citizens paying their city road and street tax. The smaller cities have been endeavoring to have the law changed in this regard and they were successful in putting it through the last legislature.

The law says that the county court at the October term of 1915 shall make the change in the boundaries of the road districts to conform to this amendment of the law.—Morning Register.

REV. HEDGES TEXT "TEACH TO PRAY"

Last Sunday night Rev. T. J. Hedges selected as his text, 1 verse, 11th chapter of Luke, "Teach to Pray."

His message in part was: "In answer to the request to teach them to pray. He gave the disciples' prayer, commonly called 'The Lord's Prayer; and further illustrated the answering of prayer, better than we know how to ask, by the use of the two parables; 'the selfish neighbor' and 'the unjust judge,' assuring an answer better than we know how to ask, based on the promise, 'ask and ye shall receive, seek and ye shall find'; and finally the Heavenly Father wishes to give the best more than earthly parents desire to give good gifts to their children. In illustration of which 'the disciples asked temporal Kingdom and He gave eternal Kingdom.'"

Martin Sharrard sang a special vocal selection which was greatly appreciated by those attending.

TRAINS TO ACME SOON

The work of ballasting the Willamette Pacific above Acme is progressing rapidly and it is now thought that passenger service will be given to the bridge in about ten days.

With the extension of the train service it is expected that faster time will be made so that the running time will be practically the same as now.

The Western Union is preparing to have the wire to the bridge site and give telegraph service about August 1st.

The station at bridge will be known as Cushman, and is named after I. B. Cushman, a pioneer of Acme. Two other stations are to be established between Cushman and Mapleton. One at the Pt. Terrace mill has been named Beck in honor of J. C. Beck, who has lived there for many years. The other is about five miles below Beck, and will be known as Wenson.
