## The Bad Boys Are Good

By Rob Milliron

Some think if there are rappers in movies it is bad. But in "Bad Boys", it is a completely different story. The Fresh Prince Will Smith has dropped the 'Fresh Prince' from his name to become a movie actor. "Bad Boys" is his second movie. Along with Martin Lawrence, the two make the movie an action packed thrill ride. The movie is about two black drug cops in Miami. Their latest bust went great. They seized a few thousand pounds of heroin. After they get home, something bad happens -- it gets stolen.

They check their sources and one gets killed. The best friend of the source befriends Mike Lowery (Smith) and his partner Marcus (Lawrence). She was at the scene of the crime so people want to kill her too. She helps I.D. and capture the Bad Boys.

The next thing I want to talk about is the death of Eazy E., who died of AIDS recently. He is a good example of how some patients don't know they have the disease until they are going to die. Eazy E was a Gangsta Rap pioneer. In 1988 Eazy was just starting in the group N.W.A. He had the virus back then. He most likely contracted the virus in 1984 or '85. Eazy E led a very promiscuous life. Where Eazy was growing up, being a pimp was a status symbol. With that state of mind he was bound to catch something. Eazy's music will live forever playing in cars, in homes, and in the hearts of many kids who listen to rap.

My next topic is the warm weather. We have been having some weird weather. Sometimes it is hailing and sometimes it's sunny. There is an upside to bad weather; all the tourists leave.

What does everyone think about the new rules at the video store? There will be no more blocks. If movies are brought in late you are charged three dollars extra for new movies and a buck fifty for old movies. The new lady is named Darlene. . . stop in and introduce yourself.

American lines and they're going  
to stay that way! Al Capone
