

BLAME IT ON THE STARS

ARIES: Mar 21-Apr 20

The engines of your karma throttle up. The challenge, as usual, is to channel the energy in ways that leave your social network intact. Work without lust for result, schmooze for the joy that's in it, cop to your mistakes, and watch for rewards from odd sources. Calm focus is crucial in matters of love. There's a good chance you won't be able to manage it. Nobody wins if anybody loses.

TAURUS: Apr 21-May 21

An interesting month, as opposed to a fun one. Unless your heart's set on nasty surprises, watch the ripples in your professional pond very closely. To the blind, all things are sudden. Smart Taureans with a low pain threshold won't imagine money is more valuable than love. The trick is to be in the material world but not of it. Play the game badly and the game plays you.

GEMINI: May 22-June 22

Growth in your work continues, right action always furthers. What better time to consider the myth of the free lunch? True, the universe arose from nothing. That's the last time it happened. Gifts have a source and the source must be honored. Remember who you are and what you're doing, share your cookies, and don't buy stuff you don't need. If you kiss life, it makes it better.

CANCER: June 23-July 23

You've experienced prettier months. Things may not be what they seem. The fun is to find out why they're not. Playing your cards close to your vest shouldn't involve deception, and it's better to let others try to fool you than for you to fool yourself. In your work, continue to tread water. Lack of progress is an illusion. You've done what you've done and the universe forgets nothing.

LEO: July 24-Aug 23

Not a bad month, all in all. Expect confusion and misinterpretation, deals that sound better than they are. Aside from that, matters move ahead at their appropriate speeds. The world thinks you're even cuter than usual, interesting projects come your way, money appears from thin air made fat by your past actions. Ignore the interference patterns, focus on the harmony of good work.

VIRGO: Aug 24-Sep 23

Happy solar return. You get the presents you asked for: awareness, motion, and change. Little is accomplished without integrity, nothing is accomplished without resistance. Resist the urge to nitpick and supervise. Close your eyes, find your path, and consult your companions. You're not walking alone and some people take longer to pack than you. Patient progress.

LIBRA: Sep 24-Oct 23

Your center this month is at home, making strong music with your people. Listen to your dreams and harmonize them with reality. Close the shutters and think thoughts larger than yourself. Treat interruptions as if they weren't accidents and quiet your pond enough to separate ripples from waves. Don't resist change. You never lose anything that was yours to begin with.

SCORPIO: Oct 24-Nov 22

Your juices are flowing, again. Opportunities arise, some of them for horrible blunders. Keep your mouth shut, your eyes and ears open. Much emotional traffic, both at home and at work. Falling in love is just as likely as misspeaking your way into social disgrace. Career vectors converge, maybe carrying money. Jump at nothing, act with dignity, and keep your powder dry.

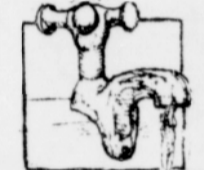

SAGITTARIUS: Nov 23-Dec 22

Good fortune under confusion, pushing upward. Ignore petty squabbles and know when to fold your hand and wait for the next deal. Don't doubt you're on top of your game, don't underestimate the importance of timing. Your light attracts both butterflies and mosquitoes: money matters get pretty, love keeps you awake and makes you itch. Vacation without running away.

CAPRICORN: Dec 23-Jan 19

You assume your natural place: the wise old goat on the mountain top. The sun shines on everything except your tawdry attempts to manipulate the karma of others and bully them into submission. This behavior is beneath you. Rise above the banal sturm and drang of jealousies and resentments. Remember who you are and accept nothing less from yourself.

AQUARIUS: Jan 20-Feb 19

The teachings just keep coming. This month we learn how to maintain our integrity in the face of relentless change. The wheel that's turning in your favor sometimes runs over your foot. Friends may arrive, friends may disappear, hearts may flutter, confidence may seem misplaced. Go about your business with a good heart, seek peace, and greet chaos with impeccability.

PISCES: Feb 20-Mar 20

As good as things are, and they're not bad at all, you can't help feeling they could be better. Emotionally and professionally, you sense you're underemployed. Change your world gently, hearts can be bruised and enemies made. The one piece of the universe you're meant to control is you, the rest is just information. Go to the well, kiss your reflection, and water your dreams.
