

BLAME IT ON THE STARS

ARIES: (Mar 21-Apr 20)
Live free or die is a nice goal to shoot for. This month finds you wondering about third options. Your juices are flowing, both creative and naughty, and cross purposes arise. Distinguish between self restraint and bondage. Nothing wrong with a dalliance, as long as everyone agrees on the rules. Compromise in work and love isn't surrender. Take what's offered, give what you have.

TAURUS: (Apr 21-May 20)
You're feeling impulsive. Stop it. Too much bull, not enough china shop. Hone in on what you're doing, bring your work home. Partnership may take on new meaning. Energies merge in the workplace, new alliances, common goals. The goals may be hormonal. When tap dancing in a mine field, it's important not to make errors. Lying down with friends is easy. Getting up with them can be hard.

GEMINI: (May 21-Jun 20)
The typical Gemini nightmare. Life has grounded you and everyone wants you to come out and play. You're feeling terminally romantic and the universe isn't giving you an ear to nibble. You must remember that whining seldom brings us closer to our goal. Settle disputes, get out of the house, and shine without caring what you light up. Stop looking at your cards and consider the game.

CANCER: (Jun 21-Jul 22)
Prudence in affairs of the heart. Avoid letting your desire to please warp the truth. You are who you are and that's more than enough. If you're not with someone, expect an encounter at work. If you're with someone, you're probably quarreling. Be sure you know what you're quarreling about. You and the unfulfilled disarray of your life get together in the end for a night of wild abandon.

LEO: (Jun 23-Aug 22)
A good month unless you forget who you are, try to buy fun, and confuse pleasure with excitement. This is the teaching called, return to the well. If the work is hard, breathe deeper. Understanding is more important than being understood. Passively resist those who would rule you with love. An old partner reminds you that timing is everything and change is constant.

VIRGO: (Aug 23-Sep 22)
You're cute as a speckled pup and the universe lets you know it. It's no one's fault but your own if you let it distract you from work at hand. Get past the bells and whistles and focus on system and process. Paying attention is the only get rich quick scheme that works. Expect success and deal calmly with frustration. The problem's not yours. It's not even a problem. It's a challenging surprise.

LIBRA: (Sep 23-Oct 22)
Life's a teaching, a karmic morality play whose plot is your spiritual development. Remember this when a past lover jiggles your balance beam. You're probably feeling a little bottled up. Friends help you pop the cork. If you can't say what you mean, just be it. Strong winds blow through your love life, some from unlikely and fruitless directions. Embrace yourself first.

SCORPIO: (Oct 23-Nov 22)
Throw yourself into your work or your work throws itself into you. Use the pressure to focus your intent, join others when necessary, leave nothing to chance. The lines may seem down between your inner and outer world. Use the down time to reassess goals, eat bonbons and play with children. Don't let your public image run you. Remember that real power is force unexercised.

SAGITTARIUS: (Nov 23-Dec 21)
You're devilishly attractive to someone at work. Chances are it'll come as a surprise. Play nice and don't use your powers of persuasion to talk yourself into a bonehead mistake. If it's right, you'll know it. Get out of town and wander, listen to people in groups, don't worry if they don't listen back. Fight all urges toward extravagance. Money is stored energy and deserves its own respect.

CAPRICORN: (Dec 22-Jan 19)
The nice thing about life is that we get to keep doing it till we get it right. Old lessons in new bottles, another chorus of relationship deja vu. Fortunately, all you need to understand is yourself. Come out of the background and pop to your ambitions. Join forces. Ignore half-baked ideas and the activities of nitwits with more power than brains. Decide what's worth doing and do it impeccably.

AQUARIUS: (Jan 20-Feb 18)
Friendships are living things with evolutions all their own. One of yours may be rising to another level. Warning lights flash on your control panel. What could be more natural than love between old friends? Nothing but ex-friends. Hold hands and talk. Energies around you once again demand you conform. Resist the urge to tell them to put a cork in it. Preserve peace, maintain integrity.

PISCES: (Feb 19-Mar 20)
One of your great charms lies in being a hopeless romantic. Always on a lonely headland, composing heroic couplets, the wind whipping your hair. This time it happens at work. It may be a good match. It could make your job miserable. Isn't life grand? Focus on work, projects in progress, working with people who don't always make sense. Have faith in your magic and stay out of the ruts.
