

BLAME IT ON THE STARS

ARIES (Mar 21-Apr 20)

Money's not the root of all evil, it's just a dandy way to learn who we are. Keep score, deal fairly, and shake hands often. To all things a season. Check your energy flow, tinker with the valves of your actions, tap the gauges of your wants and needs. Remind yourself that other people are as real as you. Bite them and they not only bleed, they bite back. Resist snap judgments, listen carefully, and speak no evil.

LIBRA (Sep 23-Oct 22)

Business is the art of being creatively busy. The stockbrokers of your karma dance like ballerinas this month. The right place, the right time, wearing the right underwear. Success is the art of not ignoring the obvious and not letting it ignore you. Act on your love for refinement, engage new harmonies, and avoid doing things that are beneath you. Listen to your gut. Following your hunches isn't gambling now.

TAURUS (Apr 21-May 20)

The lesson this month is learning to play well with others. The winds of circumstance blow you into partnerships. Have a substantive chat with the bull of your ego. Show him the mallet, remind him what happens when he behaves badly. Find your center, keep the unbalanced at arm's length, and hold your breath for four minutes before making promises you can't keep. Otherwise, say yes often.

SCORPIO (Oct 23-Nov 22)

It's your birthday, what did you expect? Yes, you really could bring That Project to completion. Yes, you could really fall in love so seriously it would scare you if you had good sense. Which you should really try to have this month. Stability inside change, the portable center, that sort of dance. Don't show your hole cards to strangers, whine in public, or show fear. It's really all there for the taking.

GEMINI (May 21-Jun 20)

When the spirit moves you, you're an irresistible force. The spirit is dropkicking you into your work. If you're wasting time, stop it. There are pleasant surprises out there, new allies, happy probabilities waiting to actualize. And write checks. Greet the world like a lover and charm its socks off. Negative vibes aren't charming, neither is lying on the couch when there's wood to be chopped. Action defines result.

SAGITTARIUS (Nov 23-Dec 21)

You just couldn't ask for a better month to hole up. Putter with purpose, clean up after old acts, line up your ducks. Clear up confusion and make ready. An event of significance approaches. Light candles, stare into them, and remember who you are. And what a talent you have for laziness and the sort of larks that involve windmills and spirited lovemaking. For the moment, you haven't the time.

CANCER (Jun 21-Jul 22)

It's okay now to come out of your shell. Hold hands with people of like mind, expose your talents, welcome new relationships. Remember it's your movie, and that tomorrow is today's coming attractions. Pay attention, fall in love appropriately, and dream great dreams. Don't waste energy playing after dark, avoid characters and scenes that get on your nerves, think new thoughts. As usual, perseverance furthers.

CAPRICORN (Dec 22-Jan 19)

Your solitude is nicely shattered by the winds of social and professional life. Movement on all fronts, your sails fill. Everything furthers, assuming you don't behave like a nitwit. Avoid working against your best interests, even for a friend, and don't let the game play you. Real potential for fulfillment exists. Just remember there are things too good to be true and no end to the chances to buy them.

LEO (Jun 23-Aug 22)

A month filled with evidence of how important home and security can be. Listen to your heart and follow your head. Seek simple pleasures, exalt the mundane, feed your loved ones. Begin something that will take time to complete and don't throw away anything you need. A Leo not noble in spirit is a Leo busy dying. Life is what it is, there are no accidents, and love is the prayer most often answered.

AQUARIUS (Jan 20-Feb 18)

Your universe centers around work this month. You'll find it fun not to resist. Your ideas bear fruit and the right people notice. Elements come together as if by magic. Appreciate the magic. Work for the joy that's in it, spare no detail, and seek counsel. Don't underestimate the work of others and deal with frustrations rather than communicating them. A new contact could easily take you to a new level. Say yes.

VIRGO (Aug 23-Sep 22)

Expend energies close to home. Simple pleasures, close encounters with the mundane. The harvest's in, the fire's lit, time to talk of many things. Ponder the beginnings of beginnings. Tidy up your hobbit hole, prepare the vessel of your life, and don't spend money on foolishness. Speak from the heart and pay attention to the easily ignored. Nothing narrows the mind quite like complacency.

PISCES (Feb 19-Mar 20)

As if you needed encouragement, feel free to ignore the real world. Focus on the framework of your dreams, the perspective of your visions. Remind yourself the future is now and deal with it. Listen to the counsel of others, they come with messages from yourself. Open your heart, blossom in the moonlight, accept invitations to dance. Gifts come to you bearing friends. Take what's given, give all you have.
