

BLAME IT ON THE STARS

ARIES: (Mar 21-Apr 20)
You're firing on all eight cylinders again. Much aspiration, more than a little yearning, enough juice to pull it off. Note the difference between pleasure and excitement, cheap thrills and the real deal. Rediscover love. Be reminded it's the surest door to self illumination, the key to the mysteries hidden in plain sight. Make art of your work and yield to obsession. Burn brightly, think deeply, and make love well.

TAURUS: (Apr 21-May 20)
A familiar lesson appears on the blackboard. It's silly to want what's not yours. In love, it's the tragedy that gives birth to painful comedy. Take what's offered, give all you have, and reexamine methods and motives. The world is not a marketplace, nothing of any substance can be bought. It's a garden where events grow from the seeds of what we do. Keep goals firmly in mind, ignore setbacks, and have faith.

GEMINI: (May 21-Jun 20)
On the ping pong table of your life, the ball has bounced from work to the pregnant rubble of your personal affairs. Disconnections, short circuits, and that worst of all nightmares: isolation and lack of feedback. While wallowing in the dust of what's not there, take a long peek at what is: work, and the very real opportunities that can and will flow from it. To all things a season. This one encourages deep resolve.

CANCER: (Jun 21-Jul 22)
As they often do this time of year, your juices are flowing. Energy, coupled with natural talent, focused on work and love. Both elements may center on a colleague. No error and no blame, as long as principles are upheld and agendas match up. Energy creates polarity and polarity creates charge. You're wonderfully magnetic now and mustn't be surprised at what you attract. Neither should you be confused.

LEO: (Jun 23-Aug 22)
The social whirl begins again. Remind yourself what you're looking for is fun, not manic activity. Embrace your passions, lust for romance, and avoid inopportune pregnancies. Go forth with enlightened abandon. Fine tune your systems, marry power to impeccability, decide what it is you're doing. Wrestle willingly with your ego, hug it to sleep, and work without lust for result. Explore your reason for being.

VIRGO: (Aug 23-Sep 22)
The great plumber of the universe has opened all your pipes. Wise Virgos will water their own garden. Draw a circle around your closest relationships, lovers and children and old friends, and look deeply at their meaning in your life. Resolve old issues and break bad habits, fix what doesn't work and be thankful for what does. Be there for others, notice who's there for you. Attend to your frustrations wisely.

LIBRA: (Sep 23-Oct 22)
Busy, busy, busy. Visions of money dance in your head, your feet may be itching to move. Demands are made, you meet them without breaking a sweat. Expect to stopped in your tracks and brought to your knees by love. With luck, you won't embarrass yourself by drooling. You experiment briefly with giving more than you have, then settle back into your characteristic balance. The smile remains.

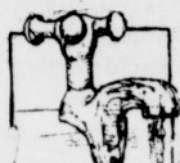

SCORPIO: (Oct 23-Nov 22)
The term 'social whirl' gains new meaning. You seem to be everywhere and still leave people wanting more. What you're wanting is money and fulfillment. Indulged appropriately, neither are crass pursuits. Frustrations with work center on your implicit hunch you're brighter than the other children. They don't want to hear it. Suggest improvements gently, if at all, salute when necessary and plan deeply.

SAGITTARIUS: (Nov 23-Dec 21)
Deep thoughts about your place in the world. Issues of right work, personal fulfillment, and self respect. In money terms, you'll be distinguishing between wants and needs. Analyze the secret costs of money. Venus tickles your stomach and rubs behind your ears. Analyze the secret costs of love. The challenges posed only seem to involve the outer world. As you know, there isn't one.

CAPRICORN: (Dec 22-Jan 19)
You're looking for something and may leave town briefly to find it. It may not be there. What you want is more. And, though you want it now, you're too smart to make demands on karma. Past loves drop by to teach you the virtues of the present and the energy it takes to leave matters unresolved. Breakthroughs are coming, but they're still on the truck. Remember that time doesn't belong to you.

AQUARIUS: (Jan 20-Feb 18)
The past slides into the present to dance with the future. New prospects are influenced by old dreams, old friends become new lovers, what was meets what might be to talk about what is. Work quietly out of the spotlight for the benefit of others, bring water to the thirsty, sunlight to the blind. Remember who you are and what it is you do. Find ways to do it better. Reducing friction is a nice start.

PISCES: (Feb 19-Mar 20)
You're spread a little thin this month. Demands from work conflict with desires regarding your mate. It's tough to balance intimacy and absence. New circles open and, along with professional opportunities, an affair of the heart presents itself. Mixing love and business is usually more exciting than fun. Decrease activity, contract your sphere, and try to remember what you were doing. And why.
