

BLAME IT ON THE STARS

ARIES (Mar 21-Apr 20)
Your flirtation with manic activity levels off just in time to let you deal with what's next. Matters of love and right work, and the notion of responsibility. You're being put upon, constricted, and niggled with. You don't like it. You think a fling might help matters. You're being stupid. Consider change carefully and listen to those with things to teach. Breathe deeply and be at your best. The effects won't go unnoticed.

TAURUS (Apr 21-May 20)
All your oars are in the water, the sea is mostly calm, the skies show promise. Observe the real and separate what was from what is. Acknowledge debts then throw out the rearview mirror. Your work is to design your future, to invoke it with your will and your actions. Practice, you'll get the hang of it. Pretend every event is a sign and every person a messenger. Fall in love, hone your work, graze on simple pleasures.

GEMINI (May 21-Jun 20)
At last, the dawn. Just when you were wondering which vein to open first, karma slides up next to you and blows in your ear. Romantically, you come in from the cold. It won't be what you bargained for, neither will it be chopped liver. Professional concerns continue appropriate demands on your energy. Apply the discriminating mind to foundation and framework. The roof's already in place.

CANCER (Jun 21-Jul 22)
It may seem you're dancing faster than you can. In matters of the heart, turbulence over strong currents. Set matters straight, cut to the chase, and play your cards calmly. Penetration is one of your strong suits, apply it a sincere search for understanding of your partnerships and pairings. Foundations can be laid now. Mix the concrete well and pour it with respect. What you are to be, you're becoming.

LEO (Jun 23-Aug 22) Fortuitous turmoil. Options, choices, and decisions. Your feet are on the path, the path forks. No 'greater than', no 'lesser than', only difference and change. In the market place of ideas, avoid personal investments that cloud your thinking. In matters of the heart, separate the wheat from the chaff, pearls from shiny pebbles, substance from flash. If someone gives you a horse, examine its teeth. Free lunches cause heartburn.

VIRGO (Aug 23-Sep 22)
Cards are on the table. The game is called 'managing your harvest'. Ignore the idiot monkey of desire when he suggests writing bad checks, either financially or emotionally. Explore the dignity of living within your means and the wisdom of loving wisely and well. Groundwork of some sort is being laid, listen to those who've done it before. Work with joy and without lust for result.

LIBRA (Sep 23-Oct 22)
Opportunities abound for stupid mistakes and offending the innocent. The goal is always clarity and right action, blindfolding yourself with self-righteousness turns high drama into low comedy. Check the constants in your relationships, tweak the variables, and fly only with birds of your own feather. Balance the social whirl with quiet evenings of cuddles.

SCORPIO (Oct 23-Nov 22)
The only prayer that's ever answered is work. Do yours quietly, for the joy that's in it. Ignore nitpicking unless you're the one doing it. Perfection is a wonderful thing, but so few of us are illuminated masters. Invite your ego to dance with reality. Decrease distance between you and those you love, visit the past, and dream. Imagine a sphere whose geometry is music. Know that you're the composer.

SAGITTARIUS (Nov 23-Dec 21)
Nothing teaches the notion of cause and effect faster than making a decision. Someone may be wanting more than you have. If you're where you should be, what you've got is more than enough. Neither promise the improbable nor write bad checks. Remember that envy really is a deadly sin and that you always have what's yours. If you want more, change something and see if what happens feels good.

CAPRICORN (Dec 22-Jan 19)
A grand month, filled with obsession, love, and overwork. Firing on nine cylinders only seems to work. As does living always in the material world. Work is something your spirit does, money is the score of another game and has a price structure all its own. Real power flows from your connections with others. Real connections are based on love and respect. Everything else eventually short circuits.

AQUARIUS (Jan 20-Feb 18)
The game's afoot and the magic's with you. Matters of great importance are on the table, consider them with clearheaded enthusiasm. Your plans aren't dreams and your dreams aren't illusions. You are what you've done, you bring a lot to the party, and you're ready to take it to the next level. The future's just the most logical outcome of the past. You've worked hard, you've been good, and the universe never forgets.

PISCES (Feb 19-Mar 20)
Time to sit down with the ledgers. Your faith in yourself isn't misplaced, your optimism isn't ill advised. Focus your intent with concrete plans, picture the future as present, and don't whine about money. Money reflects exchanges of energy and right now you're priming the pump. Keep your goals high, your principles intact, and your heart open. Dance every dance but leave early. Your best work is done alone.
