

BLAME IT ON THE STARS

ARIES (21 Mar-20 April)
Distinguish carefully between the past and the present. In the land of what might have been, dissatisfaction is king. Look to work at hand and turn what might be into what is. Shared goals are easier to reach if you separate dreams from visions. Court the unusual, visit strange places, and listen to faraway songs. In matters of the heart, play your hand carefully. Someone has cards they're not showing.

TAURUS (21 April-20 May)
An interesting month, as long as you don't short circuit. Mixing friendship and finance is no recipe for success, and the pressures you're feeling won't be eased by dynamiting your personal relationships. Get out of town if you can. Failing this, get out of your head. Expect the past to call with offers for the future and critiques of the present. We're not the sum of our past, we're the sum of our present.

GEMINI (21 May-20 June)
Venus continues to throw fish to the barking seal of your love life. This next one may be a keeper. Minimize doubts, maximize concern, and watch the patterns that develop. Differences arise between you and a partner. Exercise power with caution. Remember that difference is the source of all energy and conflict the result of ego. Go to the well, look deeply into the waters, and don't spit.

CANCER (21 June-22 July)
Eddies and dark currents stir your pond. Professional matters may get snarly, especially if you insist on stating your case. Put a cork in it, pop in the ear plugs, and do what needs to be done. Falling in love with someone you don't know can be an exciting mistake. Chain yourself to the mast and think things through. The water is often brightest when it's shallow. Love in the workplace is a class four rapids.

LEO (23 July-22 August)
The troubles you've been experiencing begin to subside. Resolution in the spheres of heart and vocation, a success of the will, a small triumph of faith. Opportunities arise. Embrace them only if they conform to your ethics and some semblance of reality. Odds are good your cash flow takes a turn, perhaps a large one, for the better. Seek out like minds, exchange ideas, and be who you truly are.

VIRGO (23 August-22 Sept)
Chances abound for romantic blunders. Confusing idle coupling with pair bonding is one of the least funny parts of the human comedy. You must chant your mantra regularly. This month's mantra is just don't do it. While you're not doing this, focus on work and the flow of cash that comes from a business relationship. Practice compassion and cultivate the art of listening. Others have much to say.

LIBRA (23 Sept-22 Oct)
An interesting month rising from imbalance of the heart. We don't always get what you want, and neither do those who want you. It's a funny world. What's not funny is mistaking shallow water for deep. Remind yourself who you are, cut ties that bind inappropriately and, if necessary, slip your leash. Harmony depends on everyone singing their part. Truth hurts sometimes, but never as much as living falsely.

SCORPIO (23 Oct-22 Nov)
Focus on work. Completion isn't a dream and work is the prayer most often answered. Recognize your talents, exalt them humbly, and use them to build something. All straightforward, except for being brought to your knees by someone too perfect for words. The words you can bet will come later. Learn from your mindless attraction and apply it to someone with possibilities rather than sweet promise.

SAGITTARIUS (23 Nov-21 Dec)
Fundamental issues bob to the surface. Vocation, independence, the binding energy of love. The clang and clatter of flirtation is seen for the confusion factor it is. Circuits overload and you should resist the urge to behave like a halfwit tyrant around those who deserve better. Take a close look at your definition of love and see if your behavior fits it. In your free moments, decide what your real work is.

CAPRICORN (22 Dec-19 Jan)
A minor watershed month. Nothing cures wasted time better than self-examination. Listen to those who know things about you you've forgotten or ignored. Check the present for outdated directives from the past, push ahead on work in progress, and get the tools you need. It's spring, your sap's rising. So is someone else's. Accept what's offered, give all you have. There is nobility and strength in surrender.

AQUARIUS (20 Jan-18 Feb)
A turbulent month, filled with accomplishment. Beginnings succeed, connections are made, ducks line up. The marriage of friendship and business, the balance between friendship and romance, the enduring nature of love. Same river, different channels. Unless you run naked down Main Street, your position in the community rises. Balance hard work with taking walks and meeting familiar strangers.

PISCES (19 Feb-20 March)
You may be feeling a little snarly this month. There's nothing wrong with contention, unless it's caused by ego thumbing its nose at reality. Check your beliefs and, if they measure up, stand by them. Struggle with power just for the joy that's in it. Your strength lies in your dreams, and your determination to make them live. Avoid falling in love with anyone at the office unless you're prepared to fall out of it.
