

BLAME IT ON THE STARS

ARIES (21 Mar-20 April) Unless something else in your chart makes you a hopeless mope, your energy should be high. You feel a restless urge to communicate. You'll learn much about the difference between communicating and shooting one's mouth off. This is especially important when the other person signs your checks or sleeps with you. Much is asked, much is needed. Challenge is another name for opportunity.

LIBRA (23 Sept-22 Oct) Patience is rewarded, you're back on top of your game, magic is afoot. Success comes when it comes and not one minute sooner. Greet it with work and laughter. Relax, feel the difference between excitement and pleasure, remember that balance is rarely achieved by the impatient and harmony involves more than one voice. Keep yours down when you feel like criticizing.

TAURUS (21 April-20 May) Temptations abound to be a control freak. Order should arise naturally rather than being imposed, chaos is an illusion visited on the insecure. Examine your options, think things through, and push in the direction of success. It's there, hiding in plain sight. Be with those of like mind instead of shuffling around in your bathrobe nursing imagined wounds. Celebrate something.

SCORPIO (23 Oct-22 Nov) Just tempestuous enough to be fun. At your worst, you're still fascinating. You're not at your worst and the fascinated come bearing gifts. Among them, someone more than mildly interesting, someone just the ticket for someone looking for massive change in their life. But then, what's life without formidable companions? Focus on who you are and where you want to be.

GEMINI (21 May-20 June) Happy solar return. The fog lifts, the drizzle turns to sunshine, and your cash flow turns positive. Expect gifts from unexpected sources, romance when you most need it, and friendships to pay off professionally. Resist the urge to stay home. The universe is celebrating your birthday and it would be rude not to show up for the party. It would be worse to be rude when you do.

SAGITTARIUS (23 Nov-21 Dec) The dance with your partner becomes more involving. The work to be done is done together, energy created by cooperation. Smooth all wrinkles, repair leaks, and fine tune the machine. Anything else only seems like fun. Everybody's going someplace and nobody gets there without faith in the value of good work and the strength that comes only from patience.

CANCER (21 June-22 July) You seem to be covered in mistletoe and catnip. The world wants you badly and your biggest challenge will be to avoid attention. Happily enough you'll most often fail. Your work is recognized, praised, and rewarded with more work. Suitors abound, some of them unbelievably charming. Check the warning lights on your control panel and think long about who you really are.

CAPRICORN (22 Dec-19 Jan) Harmony balancing chaos. Pressures arise from work: the amount of it, it's quality and value, and the idiots who get in the way of it. A good time to meditate on the difference between self fulfillment and competition, and how one of them poisons the other. Being smart doesn't mean you're always right, neither does being louder. Enjoy the closeness of friends.

LEO (23 July-22 August) A good month to be a Leo. Your love for basking in the warm glow of praise while pretty people pop grapes into your mouth is fulfilled. Your sphere expands, interesting people are interested, dreams are furthered. Unless, of course, you slip into an ego induced coma and, once again, make an ass of yourself. Love hovers at arm's reach, somehow unavailable.

AQUARIUS (20 Jan-18 Feb) At last, a little fun. The winds have quieted, the sun's out, and it's okay to be frisky. Being naturally scattered, you'll want to focus closely on work and love, all that really matters. Progress is more than probable, unless you start imagining your opinion is carved on a stone tablet. Listen to those who are drawn to you and calm whatever fears you're scaring yourself with.

VIRGO (23 August-22 Sept) The Great Unknowable opens the spigots of your karma. Your work is praised, your position advanced, your influence expanded. Success, like failure, is a cooperative affair. We all ride on the shoulders of those who support us. Acknowledge them and resist biting off more than you can chew. Harvest what's yours, accept fortune with good grace, and plant your best seeds.

PISCES (19 Feb-20 March) Dissatisfaction always brings change, sometimes it comes in great bunches. Cupboards to be cleaned, old clutter thrown out, old habits walked away from. Renewal and redirection is good, discarding what isn't trash is foolish and disrespectful. It's especially wrong when what we're throwing away are people. Friends are the people who are there before you need them.
