

# BLAME IT ON THE STARS

**ARIES (21 Mar-20 April)** What's yours flows to you through you through close relationships. In your work, the present rewards the past, cycles close, cycles begin. Mark the difference between magic and illusion. Your dream nature is strong, so is the potential for being duped. Hear no evil, speak no evil, work toward goals larger than your own.

**LIBRA (23 Sept-22 Oct)** Center energies at home and let the world come to you. It will. Accept uncertainty as a charm against boneheaded mistakes. It's a waiting game, punctuated with possible romantic whirls. Examine nothing until your powers of discrimination revive, listen to counsel, have faith in positive resolution. Hear the music and hum along.

**TAURUS (21 April-20 May)** The answer is no, little munchkin, you can't have it all. Neither can you accept every invitation or dance without paying the musicians. Your cleverness and charm run rampant, your love life is in flux. Who do you want? Do you want anyone at all? Mistakes aren't wrong, they're just inappropriate actions. Use your power well.

**SCORPIO (23 Oct-22 Nov 22)** Don't resist the urge to lighten up. Power takes many forms, even silly abandon. The work goes well, your thinking is clear, much is accomplished. Expect the random and entertain no fears. Events may bruise you but, without your permission, they can't turn you into a frog. Polish your image and behave efficiently.

**GEMINI (21 May-20 June)** Contraction being completed, expansion begins; having knocked, doors open. The corkscrew of your karma completes one cycle and begins another. The direction is up. Discounting the restless urge to shred rules and, giddy with good fortune, make monumentally stupid mistakes. Powerful, yes. Successful, yes. Bulletproof, no.

**SAGITTARIUS (23 Nov-21 Dec)** The crisp clarity of a winter full moon. Your field is charged and energy flows to you, possibly in great lovely lumps. What you value will increase in worth, links to the future are forged, large doors open. New allies appear and old partners are honored. Share your good fortune wisely and avoid arguments you don't want to lose.

**CANCER (21 June-22 July)** What you've been building keeps building. The only deadline is your own. Dance no faster than your natural grace allows, share energies, honor the process. No beginnings, no endings, only middles. Your work carries weight and attracts support. Your spirit attracts admirers. Eat wisely, sleep well, savor the moment.

**CAPRICORN (22 Dec-19 Jan)** The chorus of your karma sings happy birthday. Gifts of quality and value, recognition of your work, the possibility of fat checks. Avoid spending like a gold miner and flirting with pretty trouble. Real opportunities exist for unwise, if not fatal, attractions. Do nothing beneath your dignity and share all you can.

**LEO (23 July-22 August)** What you're looking for is clarity. Accelerating events provide challenge, partnerships and work provide the stage. Keep your nose pressed against the grindstone, your eye on the task at hand. Avoid distractions and fuzzy thinking, seek out your own company, fall in love if you must. If you would prevail, learn to endure and dream.

**AQUARIUS (20 Jan-18 Feb)** Ten pounds of potential in an eight pound bag. Aside from the usual self doubt, and the nagging sense that no one appreciates what you're going through, your energy is high, your thoughts are clear, your dance sure footed and impressive. Remember honesty needn't be blunt and good work is always rewarded. Success.

**VIRGO (23 August-22 Sept)** The winds of change, new beginnings. Your love for the impeccable holds you in good stead, work is rewarded, respect is paid. Resist your nitwit urge to overbook. One place at one time, all elements in focus. Choose work over romance and truth over beauty. Live as much as you can in the world of ideas. Form will follow.

**PISCES (19 Feb-20 March)** Check your spiritual pulse and ask pointed questions of yourself. Avoid subsurface intrigue and unnecessary doubts. Accept confusion with grace and bring clarity to your work. Your ideas bring notice and real chance for success. If nothing else, you're even more attractive than you were the last time you got into delicious trouble.
