

# BLAME IT ON THE STARS

**ARIES (21 Mar-20 April)** In many ways, the month you've been waiting for. Your work is rewarded, opportunities appear. What was ambition becomes reality, the reality is as good as the dreams. You sing your solo in concert, support comes from every quarter, professional relationships deepen and expand. Goals succeed to the extent that they're larger than ourselves.

**LIBRA (23 Sept-22 Oct)** Midwinter sap is rising, the velvet gears of karma hum. Take hold of opportunity but gamble on nothing. Old loves may return, joy comes from children, work progresses. It is the time called 'preparing the vessel'. Don't confuse the wonderful present for the even more wonderful future. The tide is coming in, cast your net and share the catch.

**TAURUS (21 April-20 May)** What you've whistled for comes. As always, at just the right moment. Much power at work, much attention coupled with many demands. Dive deep for pearls of great beauty, ignore the pearls of great price. Your strength and steadfastness are awarded their value, the truest value is selflessness, the only dragon to fight is inertia.

**SCORPIO (23 Oct-22 Nov 22)** Vague feelings of uncertainty cry out to be ignored. Resist the dull. Your mission is to find some way to have fun. Focus energies on the home but don't stay there any more than necessary. Argue with no one. Avoid the inertia of stillness and embrace the inertia of motion. Prime the pump, flush your pipes, and perform small acts of creation.

**GEMINI (21 May-20 June)** Expansion continues. Much remains to be learned, even more to be understood. New paths to old goals, new dances to old music, new faces in old mirrors. Success comes to those who believe it's coming and prepare the way with right work. Rediscover yourself and accept no impostors, check the wiring between your inner and outer worlds.

**SAGITTARIUS (23 Nov-21 Dec)** There are lessons to be learned, don't resist the teaching. Much information flows, along with money. Resist the urge to spend like a sailor. Resist even more the temptation to pout, harbor grudges, and react to old wounds. Find your center at home and play to your strengths. It's a new day for those who don't live in the past.

**CANCER (21 June-22 July)** Floating calmly in deep waters, expanding horizons with inward vision. Your intuition is even keener than usual, especially when focused on your motives. The ends of things are in their beginnings, hiding in plain sight. Resolve false differences, reduce static, and speak gentle truth. Behind the bells and tambourines, the loveliest of silence.

**CAPRICORN (22 Dec-19 Jan)** Issues of control and adjustment. You're the captain of your fate but the winds blow where they want to. Don't spit into them. Make change gracefully and manage your affairs wisely. To the blind, all things are sudden. Keep your eyes open and your mouth shut. Always and forever, you have the day you deserve. Anger destroys options.

**LEO (23 July-22 August)** Being a Leo, you're always outside. Still, what flows to you now comes from partnership. Your audience expands, applause becomes more general and louder, the spotlight illuminates without blinding you, your cash flow takes a positive surge. On a personal basis, love is aloof and conflicts over money and values can waste energy. Don't.

**AQUARIUS (20 Jan-18 Feb)** Power flows, potentials are realized. Increase in all things. Matters in limbo come to a head, resolutions are positive, new courses bring you to old goals. Scattered forces meet, not by accident but by design and hard work. Beginnings have begun, money matters coalesce, judgment is vindicated. Squander nothing and enjoy the harvest.

**VIRGO (23 August-22 Sept)** Aside from an occasional opposition, matters couldn't go much more smoothly. Your bucket overflows with good karma, your imagination molds reality, your art comes to life. Accept no responsibility not your own and question the roots of dependence. Value partnership and probability, don't doubt your talents, and make life your best work.

**PISCES (19 Feb-20 March)** The winds of winter fill your sails, your stock soars. You're even more persuasive than usual, your dreams are free of illusion, your circle is strong and nourishes your ambitions. Avoid the intoxication of success. There are edges that need sanding, behaviors that no longer further, baggage to be thrown overboard. Separate pearls from pebbles.
