

BLAME IT ON THE STARS

ARIES (21 Mar-20 April) The calm before the winds of spring, a time of eggs as opposed to chickens. Prepare the vessel, settle accounts, and undo past blunders. Avoid moping and constructing mountains from molehills. An excellent time to shy away from flirtations. Stir the pot slowly and don't court trouble. Like champions, enemies are made, not born.

LIBRA (23 Sept-22 Oct) Play your cards right and you'll be spared the sort of excitement you're better off without. Work is the best sanity ritual and serving others is the surest path to success. Nothing is furthered by wallowing in feelings of inferiority, unless you count negativity and invoked unpleasantness. Tend your garden and nourish simple pleasures.

TAURUS (21 April-20 May) Energy flows through work and the company of like-minded friends. Face your hopes with clear vision and state your goals with clear speech. Welcome new allies but check their credentials. While you're at it, check your own. If you must overvalue something, make sure it's not yourself. Tend to business, show up on time, and avoid being snotty.

SCORPIO (23 Oct-22 Nov 22) The familiar juggling of love and power. A time to remind yourself that everyone is a soloist and there's only one choir. Strengthen the bonds that join energies without restraining them, practice self reliance, be the part instead of the whole. Focus on the horizon, and don't waste time in idle pleasures. Circle your life like a hawk, but leave the mice alone.

GEMINI (21 May-20 June) Hopes and dreams are one thing, work another. Marry them and the elves of your karma dance in the streets. Step back, reassess your goals, and advance in new directions. Hide from nothing, embrace yourself, and rub elbows with people of influence. You are who you are and it's not chopped liver, unless you lapse into being an irresponsible jerk.

SAGITTARIUS (23 Nov-21 Dec) A good month to redefine your notions of fun, which tomorrow won't be, if you don't pay attention to today. Without preparation, nothing arrives but chaos. Provoke nothing, unsettle nothing, rise above your feelings of being above the mundane. Be in the world but not of it. Dream grand dreams, plant seeds, and do the dishes.

CANCER (21 June-22 July) Never underestimate the value of a plan. Tomorrow is the result of the magic we work today, and what we want we must will into being. Consider a world larger than your desires, ignore all stupidity other than your own, quarrel with nothing. Dance naked by the sea and make love with great abandon. The first sin is separation; the second is not caring.

CAPRICORN (22 Dec-19 Jan) The metaphysical sitcom of your karma focuses on those things closest to you - the foreground of your home and loved ones. Listen carefully and speak with softness and clarity. Send fears to bed with milk and cookies, don't short circuit over business, think twice before promising. Build on foundations, and support what has meaning.

LEO (23 July-22 August) Wise Leos will tend to business and clear old accounts before starting new ones. The same principle applies to the heart. Matters need to solidify, a process complicated by issues of freedom. Every act either increases or decreases options. Practice stability inside change, honor agreements, reinvent your goals. Build it, and they will come.

AQUARIUS (20 Jan-18 Feb) Connections and honest sweat yield progress and financial gain. The nose must remain on the grindstone, but other noses join you, and make the work go faster. Don't be shy about asking for help, the project is worthy of investment and returns are certain. Take notice of new opportunities but leap at nothing. You shine more brightly than you know.

VIRGO (23 August-22 Sept) A wake up call for those who imagine they work alone. Energy flows from the outside in. Seek out good company, listen to sound advice, meditate on the nature of partnership. Resist your nitwit urge to fuss, walk away gracefully from all fights. Come to grips with money matters, and discard habits that have overstayed their welcome.

PISCES (19 Feb-20 March) Yes, time to take charge. The reins are dangling, the buggy of your life has momentum, but needs direction. Nothing to it but to do it. All things are illuminated, especially matters of the heart. Behave with integrity, invoke beginnings and change. Command only by example and rule your emotions with your mind. Light candles, and smile at darkness.
