

BLAME IT ON THE STARS

ARIES (21 Mar-20 April) Juggling money, balancing books, tweaking the cash flow. All good stuff if you don't lose your head and compromise value for flash. Use your brain and mind your manners. There are opinions and methods other than your own and the people involved imagine their feelings and goals are as important as yours. The best ideas win by virtue of their charm and grace.

LIBRA (23 Sept-22 Oct) The balance beam shifts, your sphere expands. Don't imagine your good fortune has made you bullet proof. The universe is filled with idiot winds waiting breathlessly for kites like yours to make some boneheaded move. Clean your glasses. If necessary, change your lenses. To the blind, many things are sudden. Freedom of motion illustrates cause and effect.

TAURUS (21 April-20 May) A good month to remember that challenges are opportunities being coy. Balance action and patience, freedom and responsibility. Difficult tricks when the world thinks you're pretty as a speckled pup and keeps inviting you out to play. Change of large proportion is afoot. Sniff the wind, check the current, and look deeply into your own eyes. Truth time.

SCORPIO (23 Oct-22 Nov) Great potential to make a mess of real opportunity. Your influence is strong, your abilities are clear, your ideas the stuff that elevates. None of which will matter if you sink into a snit of perfectionism and finger pointing. What exactly is wrong with looking on the bright side? Trust your gut, muzzle the monkey of your misgivings, and be even better.

GEMINI (21 May-20 June) The universe celebrates your solar return with much productive scurrying and flitting about. Your heart is good, the work is right action, matters progress. Expectations are rewarded, complacency is rabbit punched by a collapsing foundation or two. Dance in the rubble, feed yourself, and have faith in the common sense of your dreams.

SAGITTARIUS (23 Nov-21 Dec) Your hunch is correct. There are other ways of doing things and those not busy being born are busy dying. Take methods and objectives up a notch, see with new eyes, have long chats with your psyche. Tighten the reins a bit. The ponies of your success need firm direction. No error, no fault, no blame. Just tweaking the good for the joy that's in it.

CANCER (21 June-22 July) The surface of your sphere is defined by the center, the outer world reflects the inner. If peace is to be found, it comes from your heart, not from the intentions and urgings of others. Sit quietly, calm your perceptions, soothe your anger and fear. Open your doors only to friends and listen when they speak. Change is unsettling only to the unprepared.

CAPRICORN (22 Dec-19 Jan) Work is the prayer most often answered. Carried to excess, it's a debilitating drug. There are limits and you may be pushing them. Cut back on the throttle, lean on your shovel, think things through. Gather your energies and solidify your support. The path you're on is a good one and it's a journey, not a race. Skipping and humming are allowed.

LEO (23 July-22 August) The fun quotient rises, the marriage of work and play. Think deep thoughts, court cooperation, suffer no fools. Adventure, accomplishment, success. Energy attracts energy, energy invokes mass. Sudden rewards for work come with the help of friends. Gratitude is the flypaper of good karma. Doors open and the kangaroos of fortune come out to romp.

AQUARIUS (20 Jan-18 Feb) Thoughts aren't objects and thought patterns aren't necessarily rules. Bring into the present only those parts of the past that make as much sense now as they did then. Study yourself and acknowledge your warts as well as your beauty marks. Flaws aren't curses, they're tools for enlightenment. Your ducks are in a row. Don't step on them.

VIRGO (23 August-22 Sept) The sort of month your work deserves. Success, broader foundations, dandy rewards. Dance gracefully in the spotlight, think large thoughts, give good counsel. Avoid the usual worry and frets and refuse to rain on your parade. The currents floating your stick don't need to be micromanaged or second guessed. Things are what they are and so are you.

PISCES (19 Feb-20 March) The gerbils of spring pull you in many directions. Say thank you, enjoy the trip, hug your fellow travelers. Write love poems and recite them to those who deserve to know how you feel. Embrace your restlessness. Not being able to be in two places at once doesn't mean the place you're in is wrong. Court small pleasures and simple virtues.
