

BLAME IT ON THE STARS

ARIES (21 Mar-20 April) Whatever you're looking for, you're most likely to find it at home. Fix the broken, change the usual, host small soirees. A time of dreams and memories. Welcome both, ask meaningful questions, avoid the myth of separation. All that is not unity is misunderstanding. Mix money and friendship only if you lust for pain and sadness. Patience is the first virtue.

LIBRA (23 Sept-22 Oct) Creative juices flow, the shmooze lamp is lit. Your work is applauded, your efforts are furthered, your influence is felt. What comes to you is yours, including the nasty shambles of your love life. Mistakes have been made or lie in wait, crooking their finger, encouraging stupidity. When emotions reach toxic levels, the only antidote is clear thinking and restraint.

TAURUS (21 April-20 May) Close friends, simple pleasures, small journeys. Open doors and windows, learn what you didn't know, fall in love with uncharacteristic abandon. It doesn't matter if you swan dive or belly flop, the important thing is to get into the water. If you're feeling unnoticed, do something noteworthy. If you're feeling unrewarded, decide what it is you really want.

SCORPIO (23 Oct-22 Nov) Action at a distance, the lure of the trail, the itching of the feet. Go. You'll be running toward something rather than away. Wherever you are, your dance card is full and lascivious distractions abound. Let your puppy play. Balance what you demand from others against what you give. You may find it embarrassing. If you don't do the adjusting, the universe will.

GEMINI (21 May-20 June) Avoid being who you're not, especially if it involves spending like a nitwit, an activity encouraged by gain from work. Money is always fun, but the real rewards are the relationships that generate it. Test your freedom of motion, dispel old fears, re-examine insecurities. While you're at it, take a look at the notion of security and what it means in terms of change.

SAGITTARIUS (23 Nov-21 Dec) The winds of karma fan your flames. Love and passion play badminton with your hormones. Good stuff, deep bonding, higher planes and all that. Focus the energy into your work. You are what you do and someone is leaning on your shovel. Calm perseverance furthers, confrontation is for fools and children. Seize the moral high ground and refuse to budge.

CANCER (21 June-22 July) The world finds you devilishly attractive, opportunities abound for lovely abandon. Smile at flirtations, laugh at obstacles, sneer at misgivings. Go somewhere, do something, work for someone else's good. Charity not only begins at home, it ends there. We're not what we have, we're what we give. Let those who struggle for power struggle alone.

CAPRICORN (22 Dec-19 Jan) You feel contained, restless, and cut off. Closeness seems out of reach, where you are isn't where you could be, time is short. All misunderstandings, misinterpretations of the data. Open doors and hug the day, spend time instead of money. Take pride in something, set examples, take stock. In a universe without separation, only nitwits are lonely.

LEO (23 July-22 August) Leos not busy falling in love are busy dying. A ghost from Valentine's Day past visits your daydreams. Weigh matters carefully. Embrace understanding and compassion, forgive the unforgivable. Throw yourself into your work. When you try to crawl out, throw yourself in again. Now is the time. Resistance is inertia, change of motion overcomes it.

AQUARIUS (20 Jan-18 Feb) Change for the better. The situation at work eases, burdens are shared, cash flow increases. Your talents are impossible to hide and someone of influence is seeking them. They could also have eyes for you. Separate what was from what is, ponder the roots of dysfunction, separate who you are from what others expect you to be. Learn something new about yourself.

VIRGO (23 August-22 Sept) The only real wealth is love and, right on cue, those closest to you write large checks. Appreciation is the purest form of gratitude. Be there, put your arms around them, embrace their love with your mind. Analyze without dissecting, construct wholes from parts, light candles in dark places. The Great Work is to make unity of diversity and there are no days off.

PISCES (19 Feb-20 March) You're just too attractive for words and, if you were any more popular, you'd need to be twins. Enjoy yourself, play nice, and entertain propositions. Someone at work is driving you berserk. Yes, you're right. No, it doesn't matter. What does matter is the ability to conciliate and persuade. Lose your composure, the game plays you, and the wrong person wins.

The opposite of a correct statement is a false statement. But the opposite of a profound truth may well be another profound truth.
