

BLAME IT ON THE STARS

ARIES (21 Mar-20 April) A chance to explore the relationship between who you are and what you mean to others, and to separate needs from wants. Done correctly, it can be fun. As others are underemployed, you may be underpositioned. Supply the necessary energy for recognition, do it without butting heads. In matters of the heart, practice patience and kindness without lust for result.

TAURUS (21 April-20 May) Whatever else the month is, it's not likely to be boring. Pleasant acceleration in your work and deepening bonds at home coupled with self doubt and long talks with your spirit. Dreams are film versions of your beliefs. Before abandoning them, fade back and look for a clearer path. Enjoy the emotional storms, the calm after will be more than worth the wait.

GEMINI (21 May-20 June) The only thing more fun than self promotion is promoting someone else. Apply this principle to both work and love. Nothing is more satisfying than completion, nothing is more stupid than confusing eggs for chickens. Demand dependability from yourself, don't throw caution to the wind, embrace children. In case of anger, insert a large cork in your mouth.

CANCER (21 June-22 July) The month of the juggling crab. Home and work, inside and outside, self and others. Good stuff. Scan the horizon, wave to the future, smell the seaweed. You're given the chance to nurture. Give gifts of understanding and compassion, raise spirits, sing praise. Dismiss insecurity as a useful concept. There is a flow, it's nice, and you're part of it.

LEO (23 July-22 August) You feel like a lion. You see what's happening, you understand the game, people like the way you play. Deep connections, glimpses of truth, the ability to nap without fear. You shine, you are eloquent, even inspired. You should also shoot for humble. When, not if, it all starts to crumble like a house of cards, don't panic. It's a test. It's always a test, isn't it?

VIRGO (23 August-22 Sept) Concerns of the material world: assets and outlays, goals versus acting as if you didn't have any. Use your head. Dust off plans and if they need revising, revise them. Don't listen to those who promise too much too soon. All things come in their own time. Consolidate your power and expand your influence; realizing that true power is force unexercized.

LIBRA (23 Sept-22 Oct) The winds of karma are at your back. Power is never misplaced, but it can be thrown away by stupid decisions and childish displays of ego. Be the vehicle of positive change, ground yourself in reality without turning your back on your ideals. Believe in yourself and live up to others' beliefs in you. Remember the first rule of creation: the only constant is motion.

SCORPIO (23 Oct-22 Nov) The worst news is that there's no place to hide. It's not a pretty month. Insecurity and doubt fed by very possible reverses in your personal and professional life. As captain of your dinghy, your only real option is to keep bailing and ride it out. Your first act of caution might be to put a cork in your mouth. No one wants to hear it. Just make things right.

SAGITTARIUS (23 Nov-21 Dec) A month much like the one you've been waiting for. Reaping what you sowed sort of thing. Dreams may come true. You could of course blow it by wasting energy on bad company and insufficiently thought out schemes and forget the difference between friends and acquaintances. In people as well as laundry detergents, new is not necessarily better.

CAPRICORN (22 Dec-19 Jan) The energies are tailor made. You play the game behind the game. Instead of challenging, surround the situation with allies. No manipulation, no deception: just aligning your forces with the way things work. Invoke your natural gift for diplomacy, allow others to do your praising, don't break your concentration by arguing with authority. Just play the game.

AQUARIUS (20 Jan-18 Feb) Much neural activity, the mind in fifth gear. The focus is on the future and the best way to get to it. There is no authority on the subject but you. Listen only to people whose wisdom you respect, weigh it against what you know, then against what you feel. Keeping your thoughts to yourself is a good way to avoid arguments you'll live to regret.

PISCES (19 Feb-20 March) You've had flashier months. Time is best spent tending to details, tying loose ends and counting the cash in your change jar. An inside time. Stay home and rediscover yourself. Who, in fact, are you? What is it you were doing? On a scale of one to ten, how well do you think you're doing it? Imagine you own nothing but your spirit. Realize it's enough.
