

BLAME IT ON THE STARS

ARIES (21 Mar-20 April) You're feeling very frisky. Romance in the air, hormones baying at the moon sort of thing. The past could become present tense, a friend could take on new meaning. No error, no blame. This is not especially true with business ventures. Long range goals are strong and intact but they'll hardly be furthered by leaping at opportunities that are, literally, too good to be true.

LIBRA (23 Sept-22 Oct) Looking for a little fun, are we? Wondering about love while swimming in it? It's a dandy month if you don't leave insecurities unexamined. What comes to you is yours; don't second guess it. If what you want doesn't come, you're not whistling right. Use your energy to strengthen bonds at work. Strong magic comes from putting your feelings into words.

TAURUS (21 April-20 May) A little review of where you are and where you're going. Nothing excruciating, just routine maintenance of your wants, needs, and goals. Question your life gently but firmly and accept no excuses. Romance nibbles your ear lobe. Unfortunately, the two of you are supposed to be working with each other. Office affairs are the subject of many sad stories.

SCORPIO (23 Oct-22 Nov) Sometimes if it weren't for the pleasure principle, you'd have no principles at all. Go on, indulge yourself. Unplug the pipes and clear your drains. The healing power of passion. Embrace an ideal or two, work for good greater than your own, and don't spend like a drunken sailor. The things money buys are diversions. What's isn't free is often not worth what it costs.

GEMINI (21 May-20 June) The universe plays your theme song: harmony through discord. Work goes well, unless you underestimate yourself and punk out on opportunity. Stop scaring yourself. Instead, question your ability to love. Romance is the dance between compassion and trust. Find what's closed and open it. It's your movie and you get to rewrite the script.

SAGITTARIUS (23 Nov-21 Dec) In order to complain, you'll need to invent dissatisfaction. No, you shouldn't bother. Revel in love and listen to what it says about life. Examine past love and see what it says about the present. Court success in all things, carry burdens you didn't think were yours, fear no dragons. A venture is proposed. It's either really good or really bad. Have fun.

CANCER (21 June-22 July) Aside from turf battles at work, a month worth waiting for. Flowers bloom in the garden of your desires. The heart is a great teacher, sex is a great lesson, self possession is the only right answer. Want without needing, love with intensity but without lust for result, avoid the blunder of office romance. What you're looking for is depth: yours.

CAPRICORN (22 Dec-19 Jan) If possible, get out of town. You'll be running toward something rather than away from it. You've got to be someplace and wherever you are, you have more fun playing with others. Jump in with both feet. Just listen for the whistle that tells you it's time to get back to shoveling your way to a fulfilling career. Tunnel quietly so as not to disturb the work of others.

LEO (23 July-22 August) Yet another opportunity to question fundamentals. The cost of making more money, the meaning of your work, the significance of your life and how it measures up against what you had in mind. If you want to cast a larger shadow, stand up. A life is as big or as small as we make it. Fall in love again. You might not be going the same direction, but you travel well together.

AQUARIUS (20 Jan-18 Feb) Much power is afoot. Nothing is more exciting than desire, unless you count danger, which you jolly well should. Embarking on a fling with a coworker can provide heaping portions of both. Other than that, work couldn't go much better. Listen to the praise, then ask to see the money. Important discoveries about yourself are the frosting on the cake.

VIRGO (23 August-22 Sept) Movement on all fronts. Solitary work pays off; new faces, new adventures; fewer demands, both imagined and real. Draw a circle around your space, allow others to draw circles around theirs. The result is closeness rather than separation. Yes, there's a lesson here. Wander your fields, check your fences, then tear them down or jump over them.

PISCES (19 Feb-20 March) You feel the need to go someplace without the urge to get away. There's a horizon you can't quite see, a sunrise going on without you. In terms of your work, you wonder where you're going, how best to get there, and if you'll be the same person when you arrive. A job is what you do for money, your work is what you do with your life. They pay in different coin.
