

BLAME IT ON THE STARS

ARIES (21 Mar-20 April) You're one click shy of bullet proof. Many vectors converge, the groove is found, energy flows like champagne. Be conscious of the flow, laugh and joke with it, feel the world expand. It's called growth and you'd be a fool to second guess it. Self confidence is a powerful tool. Selfishness is a monkey wrench. Don't indulge it. Or mix money and friendship.

LIBRA (23 Sept-22 Oct) As long as you avoid handling finances like a nitwit, it's a good, strong month. The real deal is relationships; what it is that butters your bread. You find yourself with good ones, both personally and professionally. Secure, balanced, mutually supportive. Know what you're seeing when you see it. Follow what you do until you get to why you do it.

TAURUS (21 April-20 May) A power month filled with opportunities for good work. Mostly on yourself. You're especially attractive, which generates good energy, which makes you especially attractive. Use the loop to examine your personal foundations. Change is bound to come and a real question exists about where you want to go and how best to get there.

SCORPIO (23 Oct-22 Nov) The only danger is letting the game play you. It's not how much you produce, or how efficiently, it's how you feel while you're doing it. If the work makes you cranky, you're either doing the wrong work or doing it wrong. A good time to be aware of the relationship between independence, solitude, and loneliness. Nothing to do but be cheerful.

GEMINI (21 May-20 June) Clarity is the word we're looking for. Clarity applied to rules of engagement. When is friendship a romance? When is romance a friendship? So many connections, so little discrimination. Fortunately you're cute as a bug right now and have the luxury of pondering the many faces of bonding while the world flirts shamelessly with you. No whining.

SAGITTARIUS (23 Nov-21 Dec) Create harmony from discord, deflate the blow up doll of your ego, give of yourself. This done, reap a bountiful harvest. If you've been searching for love, you find it. If your creative muse has been out of touch, it shows up to party. Powerful energies converge, meaningful events take place, significant contacts are made. Play your cards well.

CANCER (21 June-22 July) The sort of month reserved for people who've been very good. There's probably a dark side somewhere but you'll be having way too much fun to look. The presents just keep coming, your humility only adds to your charm. Use your influence well, champion something or someone, smile at your karma. Working for the good of others pays the best.

CAPRICORN (22 Dec-19 Jan) New friends, new doors, new challenges. Obstacles, like ghosts, disappear when you say boo. It's not enough now to just do the work; you must turn it into performance art. The work is neither beneath or beyond you and persistence, as always, brings reward. Domestic issues resolve themselves, peace reigns, lights appear on the event horizon.

LEO (23 July-22 August) The sort of month you know you deserve. The world is deeply in love with you. Rewards, honors, personal bonbons. With luck, this will make you want to be an even better person. Abandon some behavior that's beneath you. Practice virtue, strengthen character, live up to your self image. Warm the present and the future will warm you.

AQUARIUS (20 Jan-18 Feb) You emerge from the phone booth an irrepresible force. You are Superperson. Nothing in the zodiac compares to an Aquarian when the spirit's with them and it's with you. Just the bongo riff you needed to shake off the creeping paralysis. You rediscover the sometimes ugly love of your life: change. This time it's pretty as a speckled pup.

VIRGO (23 August-22 Sept) A peach of a month unless you foul it up arguing about money over pride. Dumb stuff that could make you miss the good fortune bouncing off the left field fence. Unexpected pleasures, unanticipated rewards. Recognize what you can and can't control, expect interference patterns, do what needs to be done. This includes being with friends.

PISCES (19 Feb-20 March) The world tends to believe people who believe in themselves. Prove your worth quietly, reaffirm what you want, act as if it were already yours. Reassess values, make lists and plans, mind your business. Doors may be opened by interesting playmates. Say yes. Change of perspective is change of consciousness. Never forget you're a moon beam.

Best of the Northwest Photography Workshops

Photograph the Northwest's spectacular rainforests, beaches & mountains at these weekend nature photography workshops.
