

## BLAME IT ON THE STARS

**ARIES** (21 Mar-19 April): A dandy month to nourish a love for the random. Smooth sailing with sudden veering riffs. Heady, windblown stuff. Fun is not found in battles of the will. Neither, for that matter, is progress. Take what comes and avoid frittering away good fortune with complacency. There's no sin in being practical, no error in relying on yourself more than others.

**TAURUS** (20 April-20 May): Energy, confidence, ambition tempered with a madcap tendency for self delusion. Another lesson on flirtation and love. Significant change, subtly manifested, slowly unfolds. The image you have of yourself may not match what the world sees. Confusing juju. Nothing is accomplished by being what you're not. Dream the truth and write it down when you wake.

**GEMINI** (21 May-21 June): Very amusing. The world thinks you're cute as a speckled pup and you suspect it's out to get you. While you're boarding up the windows and feeling put upon and unappreciated, take a moment to address your nitwit misgivings. Before mistrust of the world comes mistrust of yourself. It's your movie, pilgrim. Only you can make it a soap opera.

**CANCER** (22 June-22 July): Ah, spring. Success, exuberance, joy, and the nagging hunch that someone else is responsible for your neurotic insecurities. Yes, that one again. Frustration in love doesn't necessarily mean criminal intent. It may sound crazy, but there may not be anything wrong. Make plans as if it's you who are the architect of your experience. Build a good reality.

**LEO** (23 July-22 August): Time is best spent tending to business, which prospers. The spotlight finds you again, you're clear eyed and impeccable. Aside from the sturm and drang of your emotional life. Ah, love. A door is closed, a door is opened. Completion balanced nicely with new loose ends. The heart isn't rational, the mind is an idiot monkey. Will is the only constant.

**VIRGO** (23 August-22 Sept): Your karma flowers, your garden is an earthly delight. Smell the opportunity, expect adventure and success. Your mind is sharp, your head is clear, you understand. Good fortune is never invisible. You attract energy and support and, unless you do something incredibly inappropriate, the credit and applause you want more than you should.

**LIBRA** (23 Sept-23 Oct): For things to get much better, you'd need to be twins. The world finds you even cuter than usual, you're given interesting choices in love. Second chances to do it right, pretty new cliffs for the heart to fling itself from. Trust your self confidence, chart a practical course, hone dreams into visions. Look more closely at your effect on people.

**SCORPIO** (24 Oct-22 Nov) You've had more fun months. A lesser person might buckle under the unrelieved intensity in every aspect of life. Not you. You run away if you can and it may well be your best move. Frustration, wrath, bruised egos, skinned emotions and dense misunderstanding. Picture clear yet? Yes, there's a silver lining. You find a good place to hide.

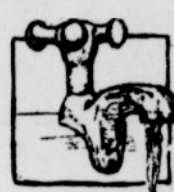

**SAGITTARIUS** (23 Nov-21 Dec): Focus on practical affairs, infuse drudge with untrammelled joy. Or, failing that, innovative enthusiasm. Take stock and compose sonnets on inventory. Forgo solitude. Work with others, especially one, brings the best results. Imagine what you'd be like without your friends, then work to make sure you never have to find out.

**CAPRICORN** (22 Dec-19 Jan): The new medicine seems to be working out. You're not your usual bundle of brooding restraint. Your upbeat shine and devil may care laugh may startle and frighten those who know you. This isn't to say they won't like it, along with the rest of the world. Your check may still be somewhere in the mail, but other messengers are interesting indeed.

**AQUARIUS** (20 Jan-18 Feb): Nothing is stable but the outcome. What doesn't change in your face you change just to see what will happen. Yes, another one of those runs. Avoid decisions made on smarmy grounds, keep your personal affairs clean, your primary relationship comfortable. Otherwise clean house, eliminate variables, and fearlessly tinker with the valves.

**PISCES** (19 Feb-20 Mar): Life is serious business we mustn't take too seriously. Continue to ground yourself in the real world while hoisting the kite of your spirit. Then the lightning comes. What isn't being born in you is being forgotten and if you don't create your reality, something else will do it for you. Then comes the fog and funereal gloom. Reduce your epic poem to haiku.

## Best of the Northwest Photography Workshops

Photograph the Northwest's spectacular rainforests, beaches & mountains at these weekend nature photography workshops.

North Oregon Coast  
April 16-19

Oregon Fall Colors  
October 8-11

Olympic Peninsula  
May 21-24

Central Oregon Coast  
September 24-27

North Cascades Wildflowers  
July 23-26
