

BLAME IT ON THE STARS

ARIES (21 Mar-19 April): Feel free to leap small buildings in a single bound. Much energy flowing into and through relationships. Take time to study the flow, reacquaint yourself with the meaning of reciprocity. In affairs of the heart and hormones, chase only what you want to catch. You're not that lonely. Slow down, have faith, and plan next year's garden.

LIBRA (23 Sept-23 Oct): You get your own way, relentlessly and with little help from others. Just make sure what you want is what you can live with. Disengage whenever possible, reevaluate your expectations, expect money matters and partnerships to be disappointing. Direct your own movie and insist on the final edit. A new relationship may open windows.

TAURUS (20 April-20 May): The fruit of power is responsibility; you have many balls to juggle. Whatever doesn't work is best thrown out, among which should be your urge to throw your weight around. Being in charge doesn't make you boss, it makes you a role model. Walk away from fights, talk about no one who's not in the room, and avoid tromping on your own toes.

SCORPIO (24 Oct-22 Nov): It's hard to imagine anything that can stop you. If you weren't so brave you'd scare yourself. Let the world know you're worth more than it's paying you. Don't waste more time on losing propositions: walk away. Without being ruthless, one of your great talents, get rid of what's not yours. Being alone is much more fun than losing your integrity.

GEMINI (21 May-21 June): Feel free to do your happy dance. Unless you behave really badly, good energy comes to you. Honor it and give it back. This could be a seminal month, strong future juju, great potential and all that. Remember that no force in the universe is more powerful than love and there is no music without harmony. Seize the moral high ground again.

SAGITTARIUS (23 Nov-21 Dec): Those who control themselves can't be controlled. Those who know who they are can't be talked out of it. Much energy, increased clarity and will power. You're cute as a speckled pup, magnetic beyond belief and lusty as a billy goat. Play your cards well. Games are more fun when you realize they're not games. A good game is where everyone wins.

CANCER (22 June-22 July): The bright red convertible of your karma is firing on all eight cylinders. Your cash flow improves along with your ability to effect change. Guard against holding your tongue. Your thinking is clear, your words have the power of truth. Exercise compassion, even if it means being unsympathetic. Remind the world you know who and what you are.

CAPRICORN (22 Dec-19 Jan): The antidote to inertia is motion. If you don't like where you are, go someplace else. Open yourself to your lover without second thoughts. Without truth, there is no friendship; without love, there's nothing. A time made for patience and faith. Celebrate simple pleasures, search out joy and abandon. Yesterday and tomorrow are today.

LEO (23 July-22 August): You're so cute it's a hazard. Use it for goals larger than yourself or be prepared to become smaller. In all spheres of your life, separate wheat from chaff, discriminate between pebbles and pearls, buy back your soul from whoever or whatever you sold it to. Love people, use things. Anyone can be king or queen; not everyone can be royalty. Be it.

AQUARIUS (20 Jan-18 Feb): To make the world a better place, make yourself a better human. Expand your balloon, question assumptions, entertain new perspectives. All you have to lose is your past and you can't lose that. Vision and disillusion, certainty and doubt: halves of a whole greater than the sum of its parts. Do what's right and the universe gives you a cookie.

VIRGO (23 August-22 Sept): You feel full of yourself. No error. Bushel baskets are for harvesting, not hiding under. Your're merely recognizing who you are, keeping it a secret is embezzling from the universe. Your thoughts are clear and correct; a good thing since work related events could make life a stinking mess. No matter how things seem, patience is still a virtue.

PISCES (19 Feb-20 Mar): Some matters resolve themselves, others need help. The challenge this month is telling them apart. Much energy to channel, many opportunities to forget that others aren't as dimwitted as you'd like to tell them they are. Your obsession is your obsession, your priorities aren't necessarily theirs. They might not even be yours. Reflect and absorb.
