

BLAME IT ON THE STARS

ARIES (21 Mar-19 April): Discriminate between goals and ambition, work for the joy that's in it, not with lust for result. Avoid working against those you're working with. Patience and forbearance further. Be sure you know the rules before breaking them. Given this, much energy flows to you. Being an individual doesn't mean being alone and solitude isn't loneliness.

LIBRA (23 Sept-23 Oct): The fires burn bright, warming places you didn't know you had places. Good partnership and money juju, your mind is clear and your interplay with others is less ruthless than it can sometimes be. There are other colors besides black and white. Avoid going off half-cocked and replaying old movies whose scripts weren't that good to begin with.

TAURUS (20 April-20 May): A peach of a month. Scattered forces focus, you're seen and heard. The secret, as usual, is attitude. Being self satisfied is the fast food of enlightenment. Don't eat it. People close to you come closer, your love amounts to more than spit in the wind, your stock rises. Or you could blow it all by building walls and bashing your head against them.

SCORPIO (24 Oct-22 Nov): A good time to explore secrets you've kept from yourself. The question is always: from what to what? The dance of cause and effect focuses on your closest relationship. It will be a happy dance if you remember there are two full blown humans involved. Examine your relationship to your work and its role, if any, in your future. You are what you do.

GEMINI (21 May-21 June): Pieces fall into place. Where you are is the product of where you've been and where you're going. Court your spirit quietly and take naps. You'll need all the energy you can get. Completions, returns and renewals. Get out of town if you can, don't spend like a drunken sailor when you do. What's not easy is at least interesting. Understand something.

SAGITTARIUS (23 Nov-21 Dec): You must be doing something right. The month we all imagine we deserve. Your mind is clear, your heart is true, you're cute as a speckled pup. Pearls are pearls, pebbles are pebbles, your eyes are open. Discrimination and right work are always rewarded, this month with cash and admiring glances from a charmed world. Climb further.

CANCER (22 June-22 July): Feeling lucky? Your roll continues unless, like a nitwit, you try to roll uphill. Paths of least resistance are often the ones that further. There are apples within reach. Pick them, they are yours. Power and clarity are the fruits of beauty and truth. Embrace every day as if it was your last, in terms of this day, it is. Frustration is lack of understanding.

CAPRICORN (22 Dec-19 Jan): Heady times, the view from the heights. Your rock garden flowers shamelessly: love, honors and money. Your heart opens seriously, your work is appreciated, your reputation grows. Your only challenge is to exercise good judgment, something you do the way the rest of us breathe. As always, seek the moral high ground and honor the real world.

LEO (23 July-22 August): The goal is clarity. One way or another, old matters and old relationships resolve themselves. Splendid opportunities for tripping over your ego by forcing issues that know more about their unfolding than you do. There is no being fooled, there's only fooling yourself. Progress on major fronts. Allies appear, doors open, cash flows. Indulge yourself, impeccably.

AQUARIUS (20 Jan-18 Feb): The dune buggy of your karma is firing on both cylinders. Seriously, you feel good. About yourself, your abilities, your present and your future. This is an irresistible force and the winds shift in your favor. Bear in mind how fast is fast enough then go as fast as you can. Have more fun than you've been having, open your heart and speak. Yes.

VIRGO (23 August-22 Sept): First the bad news: there's nothing to worry about or fuss over. You gain by seeking pleasure, possess giddy levels of self confidence, and couldn't sit still if you wanted to. With luck, this won't worry you. Work flows more smoothly when we realize which parts get done without us. Go to the garden, find hidden beauty and make love with it.

PISCES (19 Feb-20 Mar): Look outward and dream, look inward and awake. It's not others who fool us, it's just us fooling ourselves. Few things are more fun than cutting it out and getting down to business. The world works with you, don't contend with it. Trust in your vision, take everything that's offered, give all that you can. Remember there is stability in change.

I've heard him (Konrad Lorenz) say that you can appeal to human beings in the name of the thing they value most to do things that are terrible. One of the traps of idealism and patriotism is this appeal.
