

# BLAME IT ON THE STARS

**ARIES (21 Mar-19 April):** Your mantra this month: there's nothing bad about feeling good. Its antidote: there's nothing good about being stupid. Change is afoot, your optimism is the tool for the job. Just keep your ego from sawing off the board you're standing on. Build something larger than yourself and remember that anger is another name for failure.

**LIBRA (23 Sept-23 Oct):** The momentum continues. You focus on finances and partnerships, set better priorities and move in directions that further. Strong potential in partnerships, romantic or otherwise. You may finally have found the ally you've been looking for. Then again, you could lose your proverbial shirt. It's become a high stakes game. Bet smart.

**TAURUS (20 April-20 May):** Remind yourself who you are. If nothing else, it will keep the confusion around you at bay. A good month, filled with comings and goings and forwards and reverses. Have faith in your direction, do unto others nicely along the way. A veil will be lifted, the jigsaw puzzle of your karma puts itself together, the universe applauds your inner adult.

**SCORPIO (24 Oct-22 Nov):** Your karma throws a surprise party. You're ten pounds of human in an eight pound bag, able to leap outmoded story lines in a single bound, able to trip over your self certainty and make a mess of the cake. Courage is one thing, idiocy is another. Understanding this, act as if it was your last day on the planet. Work hard and tell someone you love them.

**GEMINI (21 May-21 June):** Doing two things at once becomes an asset rather than a liability. Much energy from many angles; work smart or go under. Give thought to where you're going, accept past blunders and undo their effects, acknowledge holes in your trip and fill them. A little moderation will pay off in unexpected ways. You already know the wages of excess.

**SAGITTARIUS (23 Nov-21 Dec):** Fun, excitement, disillusionment. Splendid opportunities to fool yourself in this best of all possible worlds. No matter, we learn more from our mistakes than from our successes. Knowing this, it's a win-win game. Matters only seem to deteriorate. Seek out pleasure, give it cheerfully to others, light a candle to honor the adventure.

**CANCER (22 June-22 July):** An interesting balance: a long look at what you're doing and how you're doing it coupled with partying of epic proportions. Wisdom and decorous foolishness dancing cheek to cheek. Say no to none of it but think deeply before joining forces with anyone. Flirt seriously with the world but go home alone. What you're looking for is clarity.

**CAPRICORN (22 Dec-19 Jan):** Set your sights on distant targets and don't flinch. Much ado over money. Avoid allowing your emotions to be mired over small change. You have bigger fish to fry and your time is best spent greasing the pan. Broaden your perspectives, remove yourself from any boxes, seek the sort of high ground only mountain goats know.

**LEO (23 July-22 August):** Let's see what we're really made of, shall we? See if what we're looking for is truth or illusion and give some thought to where we're looking for it. What may seem stagnation is a chance to kick the tires of your persona to be sure there's as much tread as there is air. Fall in love, be a best friend and practice well focused patience.

**AQUARIUS (20 Jan-18 Feb):** Trust your intuition; you're on a path that furthers. Affirmation comes from all quarters, most especially professional peers. The bushel basket hiding your light is lifted and the praise may be as embarrassing as it is overdue. Take it, it's yours. Use it to take affairs to their next level. You're going places. Good places with good people and good work.

**VIRGO (23 August-22 Sept):** Yield to restless urges to socialize; invoke the lovely lightness of being. Consider the future without brooding and mold it with innocent play. Success comes to those who find a way to become who they are. Shine without lust for result, be amazed by the magic of being alive, charm the world with graceful whimsy. Good juju follows you home like a puppy.

**PISCES (19 Feb-20 Mar):** Bored are we? Places you're not going, people you're not seeing, things you're not doing? Exactly. Go and do them. Startle yourself with change, buy a new hat, dance with strangers. You have nothing to fear but inertia. Expect money not to be a problem, deal with relationship issues with honesty and compassion. Live as if it were your life.
