

# BLAME IT ON THE STARS

**ARIES** (21 March - 19 April): Where you've been, where you are, where you're going. Ambition coincides with opportunity, support is there for those with eyes to see. So are no account scoundrels with hands in your pockets. Use your head for something besides a battering ram. Finesse, forethought and serious planning go further than impulse and reaction. The future starts today.

**LIBRA** (23 September - 23 October): Energy continues to focus on love. A deeper partnership than you expected, feelings you doubted you had, a new freedom to be yourself. Congratulations, you've earned it. Financial affairs can be, on the other hand, a source of pain and sadness. Joint ventures may not be to your advantage, investments may be slow to yield return.

**TAURUS** (20 April - 20 May): Power is afoot, change is in progress, opportunities abound. Those with more brains than a crowbar will, however, think before acting. Some of what glitters is gold painted plastic. Work flows smoothly in between speed bumps and your time is well spent pondering your emotional navel. A life unexamined is a life in a coma. Dive deep.

**SCORPIO** (24 October - 22 November): If you were any more charming you'd be a hazard. While basking in the warm glow of your perfection, you'd be wise not to forget to think. The world of inappropriate decisions is still out there. Act instead of reacting, don't let the game play you. Make a list of what's important to you and imagine how you'd miss it. Don't yield.

**GEMINI** (21 May - 21 June): A good time to chant the all purpose mantra: work without lust for result. Effects are never certain. Be a slave to nothing but the strength of your will to do good. A close relationship grows stronger, nourished by honesty, compassion and respect; the three legged stool of love. Equilibrium is a myth. Those not expanding are shrinking.

**SAGITTARIUS** (23 November - 21 December): Seize the moral high ground. Accept no guilt that's not yours, don't embark on affairs that could have dark endings, seek solutions instead of problems. Practice living as an art and pull out your stops. What exactly are we waiting for? Your spirit is strong, your flesh is no longer weak. Freedom involves boldness and laughter.

**CANCER** (22 June - 22 July): The bobsled ride into the holy days. Much reason for exuberance, the convertible of your karma purrs like a great cat. Money comes, money goes. Fear nothing but the little gnomes of negativity who deeply deserve to be ignored. Embrace realities larger than yourself, share what you have and leave all camp sites cleaner than you found them.

**CAPRICORN** (22 December - 19 January): Celebrate your year by changing what no longer works. The fun that results may be amazing. New colors may be added to your paint box by a close confidante, you may be subject to loyalty tests. Refuse to take them. Resist the urge to spend money or emotions with foolish abandon. You're not a drunken sailor and life is not shore leave.

**LEO** (23 July - 22 August): You're sharp as a tack and cute as a speckled pup. Expand to fill your space, give yourself to others, inspire them with kindness. Many demands on emotions and time. Efficiency is increased by honesty in a close relationship. If things are not as they seem, invoke truth and understanding. Decide nothing abruptly, especially matters of home and hearth.

**AQUARIUS** (20 January - 18 February): The uprising continues. Questions may arise regarding relationships and your place in the group dynamic. Much room for misunderstanding. For the most part, all is well; what's involved is the result of mystery not deception. Accept responsibility, part of which is knowing when to ask for help. Don't imagine you're alone.

**VIRGO** (23 August - 22 September): Opportunities abound to behave badly. The antidote to being oversensitive is to think of something other than yourself. You're not a victim, you're a result, and fussing and lashing out solve nothing. Go to your room and think things through instead of chipping at your foundations with a cold chisel. Attend to details and be open to a new love.

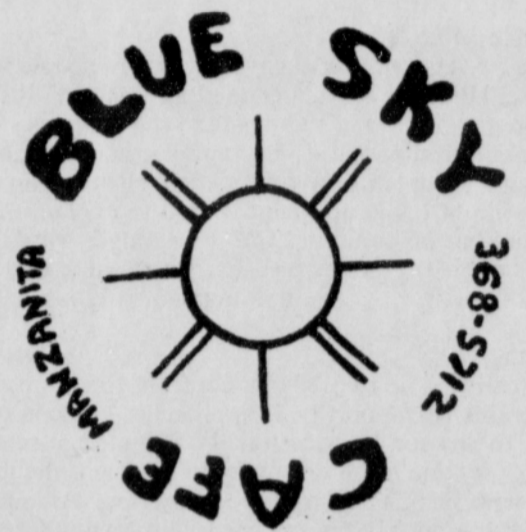

**PISCES** (19 February - 20 March): You're cuter than usual, you feel expansive and energetic, your powers of communication are even greater than usual. The world notices. There could be a new love, new projects, a new position. What doesn't work out can be lived with, whoever thwarts you can be ignored. Expect rewards. Money's not everything; neither is it nothing.
