

BLAME IT ON THE STARS

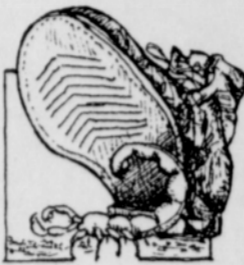

ARIES (21 Mar-19 April): Love and money, conserving and cutting losses. You rediscover the future and overlay it onto the present. The perfect equation for change. Save like there was a tomorrow, check the vital signs of a relationship that may have accomplished all that it can for the both of you. No fault, no error, no blame. Keep the faith. Without love, no life.

LIBRA (23 Sept-23 Oct): It's mostly about business and money. Remember: what doesn't bend, breaks. Nothing intrinsically horrible, just too many balls in the air for comfort. But then, who told you comfort was a birthright? Be smart enough not to argue about money with people you love. Move slowly, spend wisely, and wait. Cultivate your talents for graceful leisure.

TAURUS (20 April-20 May): A powerful time, pregnant with change. New energy, strong love juju, great potential for being stupid. Think, little bulls, think; especially in matters concerning the heart. Commitments are vows, not to be taken lightly; new lovers are always bright and shiny; decisions are only decisions. Fear nothing but the inertia of doing nothing.

SCORPIO (24 Oct-22 Nov): Spring springs. New shoots, new blossoms. Your socks may well be rolled down by a new lover, your talents aren't only recognized but rewarded, your sphere of activity expands. Listen to others, ignore unsuitable companions, avoid partisan brawls in the workplace. Celebrate change by changing. If you don't, who do you suppose will?

GEMINI (21 May-21 June): Too busy to go out and play? Stop whining. The work is good work and there's no place like home. Throw out the garbage, disentangle yourself from inappropriate entanglements, understand something misunde rstood. Piece of cake. Say yes to getting out of town, say no to the urge not to follow your instincts. A little empathy would also be nice.

SAGITTARIUS (23 Nov-21 Dec): An unusual, unexpected relationship arises. There's nothing to fear from difference as long as you remain who and what you are. Reinvoke ideals, refresh your dreams, nourish your visions. Resist impulsive acts. Not only is the grass not always greener, sometimes there's no grass. Passion's secret name is suffering. More please.

CANCER (22 June-22 July): Important people move into your heart. New friend, new lover, old teacher? Matters are fulfilled rather than unsettled, links and connections are strengthened, life is exhilarating and good. Unless you embrace some idiot scheme or spend too much time with people who, bless their hearts, aren't worth it. Your path, your fellow travelers.

CAPRICORN (22 Dec-19 Jan): Commitments, entanglements, divided loyalties. Yes, real life. Stay out of the middle and you'll be fine. Seek thoughtful pleasure with like-minded companions, decrease emotional distances, say yes to serious love. An idea you've been toying with may pay off. If so, don't spend like a drunken sailor. Be still and smile often.

LEO (23 July-22 August): Strong love magic. The difference between pearls and gravel becomes obvious, you see who and what you want. New love in old bottles, old love in new ones. What matter? The issue is saying yes to what nourishes your spirit and saying no to idle entertainments. Expect gain from work; work for the joy that's in it. Honor yourself, honor life.

AQUARIUS (20 Jan-18 Feb): You've had better months. Imbalance comes at you from several sides. You and your mate reshape your relationship, work becomes hectic and filled with diverging agendas, satisfaction of any sort is hard to come by. You're buffeted by winds you can't control. Extreme good fortune for those who realize all they can control is themselves.

VIRGO (23 August-22 Sept): Your horizon expands, or else. Nothing is more futile than resisting change, nothing more powerful than dealing with what is. Expect action at or from a distance: communication, journeys, visits. Embrace issues larger than your self, ponder impenetrables, shut up and listen. If you're hungry for love, a cook appears by magic. How else?

PISCES (19 Feb-20 Mar): Be certain that differences between you and your mate aren't just matters of ego and emotional inertia. Important, since new opportunities arise. Examine them in light of the past, reconnect with who you are and where you've been. No one knows where they're going, no one knows anything about tomorrow. Just this, just now, just you.
