

BLAME IT ON THE STARS

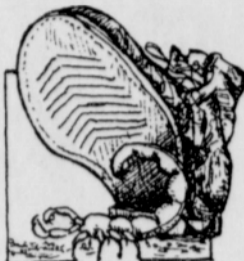

ARIES (21 Mar-19 April): Your systems integrate, progress on all fronts. Your dreams fly like a kite on the winds of your karma, your emotions are deep, your thinking is clear. Say yes and argue with no one about anything. What might not have seemed likely is now probable. Woo possibilities and court tomorrow. The future is now, the present is waving from the past.

LIBRA (23 Sept-23 Oct): The convertible of your karma burbles merrily along, happy to be out for a run. You engage the outside world with grand results: accomplishment brings new opportunities, who and where you are becomes obvious to who and where you want to be. Progress on all fronts. Trust your hunches and lead without looking to see who follows.

TAURUS (20 April-20 May): The good times roll. Completion and progress, gain and vindication. Faith is more than its own reward; it's the fertilizer on the pasture of your karma. Lower the fence and raise the bar, free yourself to set new challenges, imagine success and be humble in the face of it. Nothing furthers like right action and perseverance. Unless it's faith.

SCORPIO (24 Oct-22 Nov): Issues of love and money. The work goes well, good fortune nibbles your ear, you learn from others. And still you worry. For good reason. The resistance you feel to an affair of the heart may be a survival instinct. Cast to the earth or flung to the stars? The question is always: do I feel stronger or weaker in this person's presence?

GEMINI (21 May-21 June): Your biggest challenge will be to rein in the circus ponies galloping you from one pleasure to the next. While wallowing in money, power and wonderful romps into naughtiness, try relating to something other than the bundle of desires and fears we all mistake for ourselves. Be in the world but not of it, live by your principles and cut others slack.

SAGITTARIUS (23 Nov-21 Dec): A dandy of a month. Projects brought to completion, work acknowledged, many hugs and pats, new projects and more money. The real deal is, however and as always, your ability to inspire sanity in others by means of your lovely divine madness. Be the social alchemist, forge links, laugh often and demonstrate higher love. If you don't, who will?

CANCER (22 June-22 July): A power month. Clear vision, intense emotions, precise focus. The world is a garden flowering with possibility; follow its path to yourself. Be the gardener of your spirit. Unless we know ourselves, we cannot dream appropriate dreams. Appropriate dreams always come true. Sit quietly, suffer no nonsense and listen to the whisperings of your heart.

CAPRICORN (22 Dec-19 Jan): You continue to feel a little squelched, moneywise. Embrace economy and bear down on your work. Things come and things go; but they come much faster if you think about what you're doing and do it really well. Make new connections and strengthen old ones, expect surprises and imagine a world without you as the center.

LEO (23 July-22 August): It doesn't need to be spectacular to be fun. Revisit the distinction between excitement and pleasure. The social whirl may become a vortex. Intense doings: career gains, complex group synergies, completions. The world is a mirror of your decisions and perspective; look deeply into it. Be diplomatic, practice patience and avoid the swamps of foolish love.

AQUARIUS (20 Jan-18 Feb): Progress for all the right reasons. Your cup is filled, your creative powers surge, you make good decisions. Much is accomplished socially, you charm and delight. A little self discipline rounds out the mix, along with a willingness to think things through. Figuring out what's right is much more fun than figuring out what went wrong.

VIRGO (23 August-22 Sept): Your self confidence isn't misplaced. Professional matters go swimmingly, counterbalanced by vague misgivings. If where you are doesn't further your dreams and feed your spirit, it's not your place. Think long and hard. Work with others for some common good. Good work is always rewarded. So, in its way, is bad work. There's a tough choice.

PISCES (19 Feb-20 Mar): Progress doesn't need to be obvious. All systems are in fine order: confusion is at a minimum, your talents have a market, your needs are expressed and understood. You're seriously flirted with by someone interesting enough to tempt you to neglect work. Don't. A little of this, a little of that, a little sweat, a little play. Call it poetic balance.
