

BLAME IT ON THE STARS

ARIES (21 Mar-19 April): Your love for drama is required this month. You attract exciting, and wonderfully excitable, people who come to teach you something. If nothing else, how to keep them at bay. Be careful what you whistle for. You're offered a fresh chance to do what you said you would, a process that can be applied to the future with great success.

LIBRA (23 Sept-23 Oct): This month's truth to ponder: our lives are what we make of them. The present is the past made flesh; the future is what we do now. In this simplest and fairest of all systems, choice is the only variable. Argue less and reason more; act without reacting; do what you know is right. Independence has no meaning without relationship.

TAURUS (20 April-20 May): Emotional matters continue to be a smarmy mess. Expecting clarity will only lead to pain and sadness. The idea is to breathe in and out, keep one nostril above the waves and wait for the universe to make sense again. Resist to your last breath any urge to control things. The cards are being shuffled; whistle softly and wait for the deal.

SCORPIO (24 Oct-22 Nov): Possibilities for being an insensitive jerk abound. You're feeling thwarted, undervalued and misunderstood. Here's a thought: instead of getting angry and even, why not stop indulging your gift for self-righteousness? Say what you mean without speaking your mind and expect more of yourself than you do from others.

GEMINI (21 May-21 June): A very cute love bug is stalking you. Bide your time by taking a cold, hard look at your romantic history. Treat the episodes as sagas and tell them round the campfire of your mind. Learn deeply and discriminate. While it's true that nothing dies, life is short: too short to cast your emotional pearls in front of anyone not of like mind.

SAGITTARIUS (23 Nov-21 Dec): You're feeling restless, unsatisfied and penned in. People of like mind don't seem so like minded anymore, you smell greener pastures, you could do something you'll regret. Take stock and focus your dissatisfaction on your own warts. All things flow from the center, all obstructions can be dealt with and life, for better or worse, goes on.

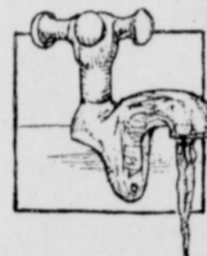

CANCER (22 June-22 July): A good time to do more of what you want to do and less of what you don't. In the midst of much change, you find stability. Notice the enduring aspects of your life and honor them. Great leaps aren't possible without faith: the magic that changes what might be into what is. Success isn't measured by stuff; it's measured by how often you laugh.

CAPRICORN (22 Dec-19 Jan): As Abe Lincoln noted, we're about as happy as we decide to be. If you must whine, do it and get it over with. If you're not having fun, you're either doing the wrong thing or doing the right thing wrong. Throw yourself into your work and spend time with people who love you; the ones who'll jam a cork in your mouth when you need it.

LEO (23 July-22 August): Your request that life be interesting is granted in spades. Remind yourself often that pleasure and excitement aren't necessarily the same thing. Abandon all notions of routine; trust that the gaily colored kite of your karma knows where it's going. Your only goal is to understand the nature of the trip and disavow all expectations.

AQUARIUS (20 Jan-18 Feb): Expansion and progress, work rewarded, difficulties harmonized. The personal power you feel isn't an illusion; avoid squandering it on foolishness. A new balance is established between work and home, your mind wanders in fruitful places, you're a magnet for interesting strangers. If possible, get out of town and charge your batteries.

VIRGO (23 August-22 Sept): Someone comes seeking shelter from the storm. Give it and say thank you. It's they who bring the real gift: opportunity for compassion. Apply it to your nitwit friends who insist on disagreeing with you. And to yourself, for being too brickheaded to admit that, in a four dimensional universe, there are at least two sides, both of them necessary.

PISCES (19 Feb-20 Mar): Your emotional saga continues. Delicious infighting, subtle struggles for power, opportunities to say things you can never take back. There's a difference between honesty and candor. Ponder it deeply. On the bright side, your nearly toxic levels of charm serve you well. Perhaps too well. Someone wants to dance, perhaps too closely.
