

BLAME IT ON THE STARS

ARIES (21 Mar-19 April): What you've been whistling for comes, the kite of your karma soars. Much fire energy: heat and illumination, strength and confidence. Who you are becomes apparent, who you will become clear. If there are cash flow problems, ignore them like scores from old games. A new game is afoot and the ends of things always lie in their beginnings.

LIBRA (23 Sept-23 Oct): The valves in your fiscal plumbing are opened. All work is rewarded; work done well is rewarded most, sometimes, as now, with money. You'll be tempted to press your success, at which point the game will begin to play you. Bad juju. Find an apple tree and climb high enough to see the whole farm. Consider sunrises and sunsets.

TAURUS (20 April-20 May): A dandy month to deal with your evil twin. Opportunities abound for being the argumentative bully your friends and family dread dealing with. You feel put upon, wronged and hostile. You're being stupid. There's no load heavier than a grudge, no poison more fatal than self righteousness. It's your perspective, dear. Change it.

SCORPIO (24 Oct-22 Nov): On the bright side, your mind is sharp. Sadly, there's a good chance your ego will use it badly. A good time to sit down with your power and have a chat. You and it have nothing to prove; and, even if you did, anger and self-righteousness wouldn't be the most charming or efficient way to do it. Plot financial coups and chill out.

GEMINI (21 May-21 June): Tumult, strain, clarity and redemption. People seek you out and come away with gifts, relationships learn to evolve or die, you rediscover the rewards of perseverance and the wages of self indulgence. Boredom won't be a worry. Face matters as they are and tomorrow will make more sense than today. Walk softly with firm steps.

SAGITTARIUS (23 Nov-21 Dec): Professionally, an absolute peach of a month. Significant chances for significant advance. You shine and bubble. Except at home where you have a real opportunity to learn patience and forbearance, when to keep your mouth shut, and the fact that others have feelings that are hurt by the incredibly insensitive things you say.

CANCER (22 June-22 July): You feel settled, serene and confident. Your thinking is clear, you know what you're serious about. Small surprise matters go well. You see results from your work and remember the value of order and method. Clarity of expression becomes you, as does letting your sensual nature out for a run in the park. Kiss your dreams and make love to life.

CAPRICORN (22 Dec-19 Jan): The universe is impressed with you and shows it. The month could mark the beginning of significant progress. Don't snivel about being overworked. Work is food for the spirit, your life's a banquet, save room for dessert. Socialize whenever possible, court pleasure, polish your group behavior. Your ducks are in a row, your goals in sight.

LEO (23 July-22 August): A month filled with possibility for pleasure and fulfillment which you can torpedo with your idiot ego. The world owes you nothing that's not here, self indulgence isn't a talent nurtured by the wise, sloth is still a deadly mistake. Time to hold your hand over the flame, root out causes and refuse to behave in ways that are beneath you.

AQUARIUS (20 Jan-18 Feb): You wonder if the adoring multitudes see the same person you do. They don't, but you're both right. Your focus on work is not misplaced, your efforts bring fruit and are appreciated. You might look up 'diplomacy' in the dictionary and think before speaking. While you're at it, look up 'commitment' too. Just for fun.

VIRGO (23 August-22 Sept): Matters go well in spite of your ill-advised attempts to prod them along. Keep your opinions to yourself, let others do what they will, engage new energies and change nothing without consideration. Remind yourself what it is you're doing and have faith in your goals. The only person who must be convinced you're right is you.

PISCES (19 Feb-20 Mar): You amaze yourself at what can be accomplished when you believe you can accomplish it. Dreams respond well to discipline and reasoned effort, the best dreams are larger than your desires, life is more meaningful when you're having fun. Great dissension with generosity, anger with kindness, jealousy with love. Be the poet of your soul.

Best of the Northwest Photography Workshops

Photograph the Northwest's spectacular rainforests, beaches & mountains at these weekend nature photography workshops!

COLUMBIA RIVER GORGE - May 19-22, 2000
MOUNT RAINIER - September 22-25, 2000
