

BLAME IT ON THE STARS

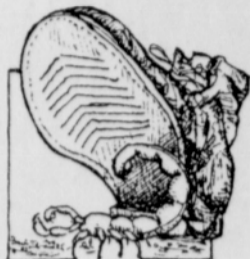

ARIES (21 Mar-19 April): Energy and people continue to flow to you. Mixed blessings, order beneath chaos, decisions to be made. If you can't control the outer world, control the inner. Accept no lies from yourself or others. Find your will, and your path, and accept nothing but your best. When expectations aren't met, tune your expectations. Perseverance furthers.

LIBRA (23 Sept-23 Oct): Harmony under discord. Arguments produce no winners, patience is the greatest virtue. See things as they are and don't imagine you can be irresponsible with matters involving others. There's work that needs to be finished. Finish it. The best way to prepare for the future is to celebrate the present. That is, after all, all that is.

TAURUS (20 April-20 May): The skies lighten, worries dissipate, old nags are put to rest. You're loved and you feel it; use the energy to love back. Someone needs help; give it. Positive changes in your work, new input, new opportunities. Think matters through, seek counsel and look at the map of your life. Where were you going? Does happiness live there?

SCORPIO (24 Oct-22 Nov): Whatever you're doing, there may be a better way to do it. Honor your mistakes without dwelling on them; they're your greatest teacher. Recommit yourself to your commitments by examining your beliefs, then impose them on no one. The universe has been described as a great thought; your ideas contribute to it. Take yourself seriously.

GEMINI (21 May-21 June): Your mission this month, and you'd be a ninny not to accept it, is to make no decisions not involving instant gratification. Long range plans are not the issue; people and relationships are. Sidestep all confrontations, expect love, give yourself over to fraternizing with those of like mind. Be gentle, don't criticize, deepen whatever's shallow.

SAGITTARIUS (23 Nov-21 Dec): Strong, warm winds are blowing. Play your hand. If your path is a good path and your work is good work, ambition is no sin. Be frank about what you bring to the table and, to yourself, resolve to bring more. If there are obstacles, surmount them; if there are opportunities, embrace them. Fear and haste are your only enemies.

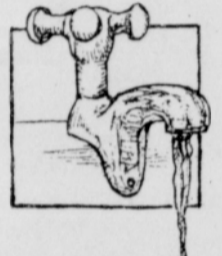

CANCER (22 June-22 July): Your confidence is not misplaced, your spiral continues upward. Connections are made, your cash flow looks up, your charm does not go unnoticed. Which isn't to say the roller coaster of your karma won't be, on occasion, unpleasantly startling. Keep the faith. Your momentum is too great to be slowed by speed bumps.

CAPRICORN (22 Dec-19 Jan): Time to step up to the plate. Sometimes you follow, sometimes you lead. Organize the disorganized, finish what's begun. You'll need to wrestle with your ego and make sure your goals are larger than yourself. Filter your emotions through your mind and avoid unpleasant people. You have power and influence; use them well.

LEO (23 July-22 August): The emphasis is on work. Find the high road and follow it, listen to problems without embracing them, don't let the game play you. Slow down and think. Increase your efficiency and focus, refuse to be deterred, work for the joy that's in it. You're not chopped liver, you know what you're doing. Dance without noticing who's watching.

AQUARIUS (20 Jan-18 Feb): Your faith in yourself is not misplaced. Your plate is more than full, obligations are many, energy may be low. It's only a situation. Worry is unexamined fear, drag it out and look at it. Once you recognize what you need to do, doing it comes naturally. Do it, and the world falls into place. Life's a treasure hunt for truth. Find it.

VIRGO (23 August-22 Sept): Be who and what you are, do what needs to be done and let others follow you. The greatest wisdom is the pursuit of happiness; the greatest foolishness is to confuse pleasure with sin. Hone your talents and don't be overly humble. Expect opportunities and act on them, shower the people you love with love, depend on yourself. Others do.

PISCES (19 Feb-20 Mar): You may be confusing acquaintances with friends. Very bad juju. Relationships have their own identity and mold the people involved. Time to separate pebbles from pearls and illusion from reality. Expand your circle, add colors to your paintbox and reconnect with yourself. Use your charm wisely and well, hurt no one, play gracefully.

Best of the Northwest Photography Workshops

Photograph the Northwest's spectacular rainforests, beaches & mountains at these weekend nature photography workshops!

COLUMBIA RIVER GORGE - May 19-22, 2000
