

BLAME IT ON THE STARS

ARIES (21 Mar-19 April): Stop with the negative vibes. No one, least of all you, needs them. Spruce up a bit, be someone you'd like to be around. Energies are focused on new projects, leaders are people who inspire loyalty and confidence. They're also people who don't run power trips and set examples of hard work and efficiency. Clear things up a bit?

LIBRA (23 Sept-23 Oct): Focus energies on your close relationships; more important to understand than to be understood. Curb your tongue, watch your temper and don't sleep with anyone you don't want to wake up with. If you know what needs to be done, there's no excuse for not doing it. Work with rather than against and let others have the credit.

TAURUS (20 April-20 May): The vision of the half-empty cup. Instead of obsessing with life's warts and pimples, marvel at its ability to dance and have fun. That's the reality to face, or one of the several you need to be looking at. Look at it, change what needs changing, mend whatever mistakes you can. Someone needs help. Help them. Not tomorrow, now.

SCORPIO (24 Oct-22 Nov): Too many balls, not enough hands. No, trying harder won't make it better. You're wasting your energies, avoiding responsibility and blaming everyone else. Open your eyes. There are no privileged perspectives, all of us at the center of our own universe, all of us spirits with a mission. The heart of every mission is the well-being of others.

GEMINI (21 May-21 June): Ignore your friends and they become acquaintances. No one knows what you want to do until you tell them and few luxuries are more expensive than ignorance. No limits, only boundaries. So little time, so much attitude. So little music, so much disharmony. When the wind changes, clever mariners adjust their sails.

SAGITTARIUS (23 Nov-21 Dec): Slow down, watch your money, stop fussing over details. Someone may be laying a heavy burden on you. Explain to both of you why and how you must lighten it. Get off the couch and go have some fun. Fall in love again, be amused and entertained, then take charge of what you're in charge of. Without balance, no dance, only dizziness.

CANCER (22 June-22 July): Nothing inspires confidence like confidence. You're dealing with influential people, their impression of you is who you are. Calm your nerve, generate no tension, polish your work habits. As for finances: if you're living in a fool's paradise, stop it. Being richer than you are is always followed by being poorer than you want to be.

CAPRICORN (22 Dec-19 Jan): Life in disharmony is trying to meditate in a drum factory. Quiet the waters, tend to your elders, weigh judgments carefully. Something long term may be ending. So be it. Everything's on its way somewhere else. If you really want to suffer, take it all personally and run off to pout. Few of us know what we have until it's gone.

LEO (23 July-22 August): What exactly is it you're afraid of and why are you taking it out on the world? Things change, hon. Whatever is, is right. Quiet the idiot monkey of your mind and be calm. It's working out quite well; or will, unless you savage it with impatience. Rise above irritation, get your eyes off the ground. The future is an act of faith.

AQUARIUS (20 Jan-18 Feb): Focus remains on work. If you're running on habit instead of thought and fondling ideas that no longer make sense, you might consider stopping it. An opportunity presents itself; consider it. People may not know what you think; tell them. Love more and fear less. No progress is made when we back into life. Think twice, then act.

VIRGO (23 August-22 Sept): This isn't the time to be stupid about money. Or to imagine the universe helps those who sit on their rump. You have cards you're not playing. Play them. Strengthen what remains and avoid clutching the unimportant. Use your facility for details to make sense of joint affairs and keep your head out of the sand. Concern, not worry.

PISCES (19 Feb-20 Mar): You might be spreading yourself too thin. Regroup and reevaluate. Whatever you do, do it better; pat yourself and everyone else on the back. Energy, often in the form of money, flows to those who improve their game. Vow not to ignore opportunity, look for gainful endeavor. Above all, don't indulge your talent for brooding poetically.

A MOTHER'S DAY CELEBRATION OF

Life & Sovereignty

May
11-14,
2001

Mercury Exit, US 95
60 miles northwest
of Las Vegas, NV.

The traditional homeland of the Western Shoshone Nation - Newe Sogobia - is the most nuked place on Earth. We ask for people to join our efforts to restore peace and justice to these lands and demand that the US uphold its treaty obligations.

Join in lectures, discussions, workshops, & activities that help promote environmental justice!

Be prepared for desert camping, hot days and cool nights. Bring plenty of drinking water, snacks and friends. Donations gladly accepted to help cover costs, no one will be turned away. NO Weapons, Alcohol, Drugs, Dogs.

Preregister by filling out this form and sending it to Shundahai Network.
