

BLAME IT ON THE STARS

ARIES (21 Mar-19 April): Power and energy flow from the home. Play your cards right, it's an amusing and entertaining month. You may have forgotten how to have fun or the difference between pleasure and excitement. Refresh your memory and expand your bubble. Part of your game may be playing you. There are loose reins. You should think about grabbing them.

LIBRA (23 Sept-23 Oct): Many opportunities to mistreat and offend those closest to you. Yes, it's a good time to expand your sphere. Yes, you need to get out more. No, you shouldn't forget the difference between friends and acquaintance. Business matters loom large. Keep your money in your pocket and run the numbers twice. True self interest is interest in others.

TAURUS (20 April-20 May): It's good to be a much loved monarch. Your fires warm your friends and family, buds blossom, your reputation and worth increase. Unless you become a greedy, self-righteous despot and remind people why peasants revolt. Avoid overspending, there'll be a tomorrow, the piper expects to be paid. Open your heart to strangers, they become friends.

SCORPIO (24 Oct-22 Nov): You may be living a little too large. Send your ego to its quiet place and stop reading your own press releases. It's time to raise the bar and match performance to potential and reputation. You've been irresponsible. That was then, this is now. Duties truly exist in life and if they weren't yours, you wouldn't have them.

GEMINI (21 May-21 June): There are decisions to be made. Avoid making them. Hear the advice of Thumper of Disney: if you can't say something nice, don't say nothing at all. Do your level best to cooperate, unite rather than divide, listen before you speak. An affair of the heart may move to the front burner. Good reason to be the best version of yourself.

SAGITTARIUS (23 Nov-21 Dec): It will occur to you that you've been wrongheaded again. It's not the things we don't know that hurt, it's the things we think we know. Try to see past your navel. There's a higher path you could be following, there's good work to be done, a message brings matters to completion. You're on a mission; remind yourself what it was.

CANCER (22 June-22 July): Of all the things to argue about, none is more stupid than money. Finances, cash flow and security are your obsessions of the month. Avoid taking your phobias out on others and remember the only thing you take with you is peace of mind. Every puzzle has a solution, every day has a tomorrow. Mind your affairs and success necessarily follows.

CAPRICORN (22 Dec-19 Jan): You're a mountain goat mired in the material world. No choice but to run with it. Sit down with your spread sheet and lock the doors. No one leaves until the numbers make sense. Credit only seems to be an asset, investment is gambling. Take inventory of your garden, see what's growing and what's not, think on it deeply and long.

LEO (23 July-22 August): The sun shines, sort of. Progress and expansion on a personal level; poison if done without regard for others. Yes, dear, the self-centered thing. There is no self interest in behaving as if yours are the only interests and feelings that matter. A leader is someone others follow. Lead well or walk alone. You're dangerously attractive. Ignore it.

AQUARIUS (20 Jan-18 Feb): Many opportunities to work against yourself. Self righteousness is not a virtue; grace is. If you doubt you're part of a team, try doing it all yourself sometime. Compromise isn't weakness, it's wisdom. Try to consider opinions other than your own, work with the universe, not against it. Bring water to the thirsty, bring flowers to the sad.

VRGO (23 August-22 Sept): Much more is hidden than is revealed. Regard it as a treasure hunt. Resist the urge to look inside, rummaging through your junk drawers, making mountains of molehills. Isolate the variables, keep your ears open, look for clues. Stop competing, enlist your enemies as allies and get on with the sort of fun fussy and gloomy people seldom have.

PISCES (19 Feb-20 Mar): Feeling neglected and put upon? The highest magic involves transforming have-to into want-to. When it's necessary to serve, throw yourself into serving. There's joy there, and new understanding. Recognize the difference between things we must carry and burdens. A burden is a responsibility with personal luggage. Pitch it.

Man's unhappiness, as I construe, comes of his greatness; it is because there is an infinite in him, which with all his cunning he cannot quite bury under the finite. Thomas Carlyle
