HOROSCOPES

By Soup Can Sam, staff astrologist

Gemini (May 21-June 21)

Let's go where the water taste like wine. Back to somewhere we stumbled upon a long time ago. Moving feet and butterfly roads, where the climate suits my clothes. A little bit of the past, and a whole lot of the present will lead to a better future if you can keep the moment focused in your head. Dive deep. Enjoy. Repeat all summer.

Cancer (June 22-July 22) It's hard times on the flatlands, a twisted mess left a path in the Heartland. From the shores of Japan to the beaches of Tripoli to the doorways in Portland, if you take the time to listen closely, you can hear their hearts pounding and dreams fading fast. Make it a point this week to offer a hand to the human race. You choose the path.

Leo (July 23-Aug. 23) You should think twice times two if you find yourself taking more than you give this week. If you find the space to give to others, you might just find what you've been missing — then again, maybe not. But really what do you to lose?

Virgo (Aug. 24-Sept. 22) Think before you

speak this week. It sucks to speak out of turn and be dead wrong. You've been warned.

Libra (Sept. 23-Oct. 23) There's no stopping you this month. Focus: Don't let yourself stray from the beaten path, but don't forget that you're on it. Relax. This is exactly where you are suppose to be.

Scorpio (Oct. 24-Nov. 22) If you've gotten this far than you might think about going a bit further. There's really no stopping. Sooner or later you will be clutching your chest and fluttering around like a fly on spam. There's only one life to live. Live it.

Sagittarius (Nov. 23-Dec. 23) There's a beautiful moon rising over the horizon. Don't be afraid to track it this summer. You may or may not catch the satellites treasures, but you are bound feel fulfilled with the unknown that comes from the chase.

Capricorn (Dec. 24-Jan. 19) Stop waiting for the world. What you got is what you got — a broken language and a long wind, short breaths trapped off in the distance and a tall tail waiting to be engaged. Don't wait for the world to change, friend. It's in your hands.

Aquarius (Jan. 20-Feb. 19) Save a space in your parking lot for a friend, friend. Life is seriously too short.

Pisces (Feb. 20-March 20) Soup Can carries his home on his back. The police and security guards kick me around every time I lay it down. I got no place to go. I'm shuffling through your city in the sun. My best working days are through. Not sure I'll ever find a way back home. I got friends. I won't get too low. Be thankful for the small things, friend, and let it show.

Aries (March 21-April 20) It's too late in the night to determine what exactly the stars have in store for you. It may be better that way. What's the fun in knowing the end to a means? The powers that be have left you here to decide what to do. Good luck.

Taurus (April 21-May 20) Spring flowers are better than dead flowers and dead flowers are better than no flowers and no flowers are better in Portland than any other place around. Take a walk this week, and take the cutters, and make your own bouquet from neighbors and friends. Soup Can's rules are as applies. If the flower is hanging in the sidewalk, past the property line, it's fair game. Don't be greedy though. Save some for next time and enjoy the spread.
