HOROSCOPES

By Soup Can Sam Staff Astrologist

Sagittarius (Nov. 23-Dec. 23)

There comes a time in every person's life when it makes more sense to do unto yourself as you would have others do unto you too. Treat yourself right this month even though it goes counter to the "holiday" culture. You might even wrap up a little something for yourself!

Capricorn (Dec. 24-Jan. 19) "Mr. Turtle Soup, how many licks does it take to get to the Tootsie roll center of a Tootsie pop?" Well, heck. That depends on who's licking. Wet your lips and get started. Don't bite.

Aquarius (Jan. 20-Feb. 19) It's time for a bumper sticker. Put one on your car, your bike, your wagon, your shopping cart, your behind. Wherever it goes make sure it tells the world something important, big or small, about you or/and your values. Make your statement stick!

Pisces (Feb. 20-March 20) For you my dear, I'm sorry to say, December is sore feet month. Take a load off and put yours up

whenever possible. A little foot bath every few days is also in order. You can add something nice to the water—rosemary, an oil of sorts, salt, or even a penny you've just wished on. And tuck a slice of bologna in your shoes for later.

Aries (March 21-April 20) The latest research shows that orangutans are our closest relatives. Do something nice for your elders and check your labels and eschew palm oil. You're the butterfly with a tsunami in her wings!

Taurus (April 21-May 20) What would it be like if no one doubted or bah humbugged? What if everyone's eyes twinkled with delight as they wrote a letter asking for peace on Earth or some peas in their pot? What if there was a chance everyone would get what they needed. Play Santa or play with Santa, depending on your level of adventure—just put some more play back into your life.

Gemini (May 21-June 21) It's the last month of the year—last chance to put your signature on 2011! So get your wild on for December!

Cancer (June 22-July 22) Light a candle. Let it burn, but don't let it burn out. Wet your fingers and snuff it out and feel the balance between power and vulnerability.

Leo (July 23-Aug. 23) Everything is better when it's been allowed to breathe first.

Virgo (Aug. 24-Sept. 22) This is not the week to do things you don't want to do.

Libra (Sept. 23-Oct. 23) You deserve everything you've got coming this month! The stars are shining bright on your Saturdays and Sundays, and especially sparkly on Thursday afternoons. For best results, don't be coy Friday night. Enjoy!

Scorpio (Oct. 24-Nov. 22) Still pining away for that long lost love? Let it go. There are plenty of proverbial fish in this sea, and they're in the same situation. You're the bees knees, the cat's pjs, and if you see someone with a similar twinkle in their eye, say hello, and let it go.
