## HOROSCOPES

By Soup Can Sam, Staff Astrologist

### Capricorn (Dec. 24-Jan. 19)

Coax out your inner-child and eat a spoonful of Oregon earth. Mama always said whatever doesn't kill you makes you stronger, and your immune system definitely needs the extra kick this season.

**Aquarius (Jan. 20-Feb. 18)** New Year's grays getting you down? Go book yourself a massage or a manicure. Treat yourself to a long, hot bath. You deserve it, even when the weather makes you think otherwise. Never trust the weather.

**Pisces (Feb. 19-March 20)** Cook a fancy dinner for the person you love. Spice up that bland old quinoa recipe with some turmeric and paprika. Carnivore? Spend the extra money on free-range for this one. Herbivore? Make sure it's all organic, local and seasonal. Omnivore? The world is your oyster.

**Aries (March 21-April 19)** Your voice matters. Call your Congress people, write a letter to the president, attend a town hall meeting, drop in to chat with the mayor.

True change is accomplished by individuals and sometimes our elected friends need to be reminded that we're out here telling them yes, we will.

**Taurus (April 20-May 20)** Hummingbirds can fly backwards, but you can't. You've got to keep moving forward, onward and upward. You can glance behind you now and again, but your better self is always just ahead. That's where you should focus.

**Gemini (May 21-June 20)** January is the month of kale! Green, beautiful kale! It tastes kinda funky, goes well with your lifestyle, and is affordable — three qualities you seldom find in something so good for you.

**Cancer (June 21-July 22)** Your houses are finally in order, thanks to some accommodating moons and generous stars. You've got good friends on your side. Keep them there, because you're going to need them before this month is out.

**Leo (July 23-Aug. 22)** If you're thinking you should have had that infection checked out last week, you were probably right. Listen to your inner abcess with greater haste.

**Virgo (Aug. 23-Sept. 22)** Soup Can went on a bender and got a psychic reading free of charge — professional courtesy, don't you know. As a matter of fact, it wasn't anything I didn't know. For the record, it's not the future that's so exciting, it's what you do with it.

**Libra (Sept. 23-Oct. 22)** Your secret is not safe. No point in wasting all that energy trying to keep it hidden. Spend more on making it pay off. Let ol' Jupiter run the show.

**Scorpio (Oct. 23-Nov. 21)** One great thing about most hiking boots: they are waterproof! Channel the Gorge in this slushy muck and bust out your summertime Keens. Not only will you get to your location dry and mighty, you will look like a Portland winter rock star.

**Sagittarius (Nov. 23-Dec. 23)** On a similar trajectory, wool socks are possibly the best invention known to mankind. Keep it warm and conscious this winter with eco-friendly wool wear. Wow, that REI sponsorship is really paying for ol' Soup Can!
