

Portland musicians Jenny Conlee of The Decemberists and Casey Neill support the safety net.

Everyone deserves a home

Portland's long-standing safety net provides a basic level of security that we all deserve. In particular, when people have a safe, stable, affordable place to live they're better able to invest in themselves, their children and a better city for us all. City Council's support of the safety net is a powerful stand for Portland values. The safety net consists of critical investments in both housing and homeless services.

HOROSCOPES

By Soup Can Sam, Staff Astrologist

Pisces (Feb. 19-March 20)

Your uncanny sense of perceiving what a person wants or needs will be extended and tested this week. Try not to become too involved and distracted. Trust your instincts and come out on top! Try painting or writing to unwind. Or not. It's hard to tell what you're into these days.

Aries (March 21-April 19) Sometimes taking a different route home rather than the same old boring road can be exhilarating. Exploring new ways of doing things that can be the same. A new approach is on the horizon. A new horizon is always just ahead.

Taurus (April 20-May 20) You have it inside of you to overcome that which you think is really weighing you down but which is actually keeping you elevated in an orbit all your own. This is a good thing. You shine brightly against a dark vastness of bleh, and not many people have that in their bag as often as you. Tally a few more blessings this month — you've earned them!

Gemini (May 21-June 20) Let your

eccentricities rage this month! The strange paintings, the unusual cape outfits and the disturbing facial appliques — they will be your salvation against endless days of grey and long, windy nights. Hoist up the freak flag, Gemini, forever may it wave!

Cancer (June 21-July 22) You will experience an emotional rollercoaster ride this week and your expectations of someone close can let you down. But you may be pleasantly surprised by someone new in your circle of friends. Look for the best in them and overlook their seeming faults. They look to you for direction. Get involved with others and you'll find real friendship.

Leo (July 23-Aug. 22) Strange things are bound to happen to you. Really strange things are likely to happen this month. And it's flat out bizarro world on the 22nd. You can only roll with the punches, and roll you will.

Virgo (Aug. 23-Sept. 22) Galileo's moons have worked themselves into a lather about the good news on your horizon. It starts, oddly enough, with a fire engine siren and will build to something far more pleasant than the initial omen would suggest. Keep your ears peeled the coming weeks. And don't play with matches.

Libra (Sept. 23-Oct. 22) There are tried and true

lessons you learned when you were a child. You have forgotten most of them, sadly, but so has Soup Can and everyone else we still recognize. But that's part of the course of endless rejuvenation we're all on, which is hella better than the Benjamin Button kick or that Freaky Friday option. Count yourself lucky this month for the boundless opportunities that lay ahead, again and again.

Scorpio (Oct. 23-Nov. 21) Go graphic this month. Read more comics. Buy little pieces tiny of clothing. They go well together.

Sagittarius (Nov. 23-Dec. 23) Three words: Sensory deprivation tank.

Capricorn (Dec. 24-Jan. 19) Don't believe everything you read. It's that follow-up story that's always the real kicker. Stay tuned in, turned on and that other thing.

Aquarius (Jan. 20-Feb. 18) Since today is always the first day of the rest of your life, you should make the best of it. Don't regret anything about yesterday and worrying about tomorrow won't help either, because, of course, today is the tomorrow you were worried about yesterday. So just enjoy yourself and the company of a good friend.
