

Everyone deserves a home

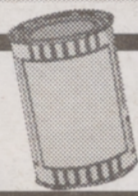

Portland's long-standing safety net provides a basic level of security that we all deserve. In particular, when people have a safe, stable, affordable place to live they're better able to invest in themselves, their children and a better city for us all. City Council's support of the safety net is a powerful stand for Portland values. The safety net consists of critical investments in both housing and homeless services.

HOROSCOPES

By Soup Can Sam, Staff Astrologist

Aries (March 21-April 19)

Breathe deep and soon it will be all better. Stop breathing and things will only get worse.

Taurus (April 20-May 20) The sun will return one day. It's up to you to be ready for it. Sunscreen, wide-brimmed hat, exposing clothes and clothes that expose a lot, fresh skin and a big smile – that's what you need in your summer kit! The big smile actually doubles for a lot of things.

Gemini (May 21-June 20) Weather got you down? Have a good time in spite of it. Notice the beauty of nature, the flowery trees exploding along the waterfront, the vividly fluorescent green of the trees and moss and ferns creeping from the earth. Find a waterfall, stand underneath it, cleanse and renew yourself.

Cancer (June 21-July 22) Somehow in your race for the prize you've managed to burn bridges and alienate your significant other (explains why the moons of romance have gone a bit dim lately, if you know what I mean,

and you do). Start apologizing. Try to make it sincere, but if you can't, apologize anyway.

Leo (July 23-Aug. 22) The lack of romance you've experienced for the last month will finally blossom in a chaotic fashion. Be careful what you wish for.

Virgo (Aug. 23-Sept. 22) Santorum's out?! Yes, the GOP has washed its hands clean of the once great second-choice candidate for the presidency. Santorum will always be around, however, so long as sexual liberation remains a pillar of 21st Century America, Santorum will follow gay men in their post-coital pursuit of happiness.

Libra (Sept. 23-Oct. 22) Be authentic. That takes courage and strength, but over the course of time it is the only way to truly live.

Scorpio (Oct. 23-Nov. 21) So that trophy you hold in your hand shines of gold, even platinum. Only you find out that it's all a fake when you get caught in excessive heat or a torrential downpour. That prize you thought you won just got blown away in the tornadoes hitting the Midwest.

Sagittarius (Nov. 23-Dec. 23) Halloween is just around the corner, so start stocking up on the green makeup today! It should be on sale now. As a general rule, you should always secure your goods before the time of necessity arrives.

Capricorn (Dec. 24-Jan. 19) With your experience, you might want to consider a job with one of those companies that pays people to stand in line.

Aquarius (Jan. 20-Feb. 18) It was as if an occult hand, in a glove of gold, took over your house of peace and painted it in capitalism. Break free, lil' water bearer! Tune out the corporate hum and channel that bit o' nirvana that's been acting like a grade-schooler, never picked on by teacher, waving his hand high from the back row of your psyche with the right answer all along.

Pisces (Feb. 19-March 20) Things are looking up for you this month. An old flame will reappear in your life. Whether that is good depends on you. But, the financial windfall will definitely improve your social status.
