

Street Roots Summer Rally!

SUMMER RALLY 2012

Always wanted to help Street Roots? Become a captain and raise a little or a lot with your friends and family.

How does it work? Individuals create a team and become captains. Captains then recruit friends to give online. (Takes 5 minutes to set up, is super easy and we can help).

We're hoping to get some diverse individuals and interests rallying to support the organization. There will be prizes and a blow-out Street Roots barbecue in June.

The event will last from Friday, May 25 to Sunday, June 24.

HOROSCOPES

By Soup Can Sam, Staff Astrologist

Gemini (May 20-June 20)

If the shoe fits – throw it to the back of the closet and grab you flip-flops instead! This is toe season! Time to flash those tender digits in red, white and blue, black, green and aubergine! No leather 'til crappy weather!

Cancer (June 21-July 22) There's love in the skies. Lots of it. Some of it's for you. But most of it's not. Good luck sorting through the atmosphere for that pot of gold. Soup Can will keep mum if you get a little that didn't have your name on it.

Leo (July 23-Aug. 22) Dancing in the moonlight, as the old rock song goes, will really lift your mood in the next week.

Virgo (Aug. 23-Sept. 22) That best friend of yours is itching his/her way into your romantic heart. Soon you'll discover that person you've desired has been right at your side all along.

Libra (Sept. 23-Oct. 22) Look what the cat dragged in. Your breathing is labored and you look bad. Time to consider dropping some friends.

Scorpio (Oct. 23-Nov. 21) You've burned a couple of bridges over the past week, but unfortunately, you're not rebuilding them. It's a process, but in as little as four weeks, the foundation will be much sturdier against future volleys.

Sagittarius (Nov. 23-Dec. 23) When the going gets tough, the beer always tastes better. Time to find a new microbrew to ring in Summer right and proper. Soup Can suggests taking a break from the IPA route and wetting your palate with a refreshing pilsner. Jupiter recommends tossing back a few 40s, but then he's just the type. Stay classy, Jup.

Capricorn (Dec. 24-Jan. 19) You'll have many questions in June. There will be few answers. There will, however, be people

with bigger questions than your own, so you're going in with an advantage.

Aquarius (Jan. 20-Feb. 18) You haven't been climbing enough trees. You won't reach the higher branches until you come to grips with pulling your feet off the ground in the first place. Let your soles see the light of day.

Pisces (Feb. 19-March 20) Once upon a time, people were either good or evil. They still are. Just keep that in mind as the month winds to a close. And remember to floss. It really just makes everything better.

Aries (March 21-April 19) Unclear messages. Something about falling to Earth from a high place. You're petrified but pinned in place and you can't move. It's either skydiving or... erm, yep, definitely skydiving! Have fun!

Taurus (April 20-May 20) Resist the urge to gouge your eyes out next week.
